The minor in Women's Studies offers students a range of courses forming a program with an interdisciplinary emphasis on women, the contributions they have made to society, and the effects of gender inequality. The program provides opportunities to become acquainted with the scholarship that has developed during the last 25 years focusing on both the specifics of women's lives and gender as a category of analysis. Students will also have the opportunity to carry out an internship in a setting or agency that addresses issues related to women and gender.
