Clinical Simulation Center
Confidentiality Agreement

August 1 - due date for Fall Semester admits to the nursing major
January 4 - due date for Spring Semester admits to the nursing major

I have access to Confidential Clinical Simulation Center Information and need to be aware of and abide procedures that apply to simulation information:

Confidential simulation information is defined as anything that I, or those individuals with whom I interact, would expect to remain private including information relating to

a. simulation patients;

b. standardized patients;

c. patient models; and

d. students

Confidential information may be used only as needed to perform my specific activity related responsibilities.

As a student, learner, trainee or patient actor, I am required to comply with the Clinical Simulation Center guidelines relating to confidential information. I understand that:

1. I may have access to confidential simulation information.

2. I am responsible for protecting all simulation information.

3. Confidential simulation information may only be used as needed to perform my assigned activities. I may:
   a. not share any simulation scenario information with others outside of my clinical simulation group and clinical faculty;
   b. not share or disclose specific simulation patient health information;
   c. not share student performance with anyone other than those in my clinical simulation group and clinical faculty;
   d. not misuse or be careless with simulation information.

4. Violating this Agreement may subject me to loss of simulation privileges.

By signing below, I acknowledge that I have read and understand the above Agreement and agree to abide by the terms of this Agreement.

Failure to sign this form will result in dismissal from the nursing program.
