Clearing Flags in Starfish

Once a faculty or staff member, who interacts with a student that has had a Flag raised for them, has determined that the Starfish Flag can be considered "resolved", they may follow these instructions to do so.

1. From your home page select Students or My Students from the dropdown. Then select the Tracking tab.

2. Once you have found the flag you would like to resolve, hover over the tiny flag by the item name and select Clear.
