Emergency Support Function #9 - Urban Search and Rescue

Primary Agency
Campus Police
Radford University EMS (non transport)
Radford City Fire Department

Secondary/Support Agencies
Radford City Police Department
Radford University Office of Emergency Preparedness
Carillion Patient Transport Service
Volunteer Search and Rescue Groups
Virginia Department of Emergency Management

Introduction

Purpose:
Emergency Support Function (ESF) #9 – Urban Search and Rescue provides for the coordination and effective use of available resources for urban search and rescue activities to assist people in potential or actual distress.

Scope:
Radford University is susceptible to many different natural and technical hazards that may result in the damage or collapse of structures within the campus. Search and Rescue must be prepared to respond to emergency event and provide special life saving assistance. Their operational actives include locating, extricating, and providing on site medical treatment to victims trapped in collapsed structures. In addition to this, people may be lost, missing, disoriented, traumatized, or injured in which case the search and rescue agency must be prepared to respond to these incidents and implement search and rescue tactics to assist those who are, or believed to be, in distress or imminent danger. Predominately, these search operations occur in "open field" situation, such as parks, neighborhoods, or other open terrain.

Policies:
- The EOP provides the guidance for managing the acquisition of Search and Rescue resources;
- All requests for Search and Rescue will be submitted to the Radford University EOC for coordination, validation, and/or action in accordance with this ESF;
- Communications will be established and maintained with ESF #5 – Emergency Management to report and receive assessments and status information;
ESF # 9

- Will coordinate with locality, state, and federal agencies when necessary;
- Personnel will stay up to date with procedures through training and education; and
- Search and rescue task forces are considered Federal assets under the Robert T. Stafford Act only when requested for a search and rescue for a collapsed structure.

Concept of Operations

General:
During a search and rescue operation after an emergency, the University will call upon the local fire and law enforcement departments to assist in the operation. The Emergency Medical Services (EMS) providers will also assist with other functions to search and rescue as set forth in the Virginia Association of Volunteer Rescue Squad’s Operation Plan.

Organization:
The Fire Department will be the primary agency in any urban search and rescue operation. The local EMS, law enforcement, and facilities management will assist when required for structural evaluation of buildings and structures (ESF #3). Local Law Enforcement will be the primary agency in any ground searches. The local chapter of the American Red Cross will assist with support efforts during searches such as mass care feeding; sheltering; bulk distribution; logistics; and health and mental health services for rescue workers, support personnel, and the victims. The Health Department will advise search and rescue medical teams on industrial hygiene issues as they become apparent. Facilities Management will assist with any equipment, maps, staff, and vehicles. In a secondary role local law enforcement will assist with perimeter security, communications, and assistance as required. The Fire Department and EMS as a secondary role will provide medical resources, equipment and expertise.

Communications will be established and maintained with ESF #5 – Emergency Management to report and receive assessments and status information.

Actions
- Develop and maintain plans and procedures to implement search and rescue operations in time of emergency;
- Provide emergency medical treatment and pre-hospital care to the injured;
- Assist with the warning, evacuation and relocation of citizens during a disaster;
- The designated representatives should report to the Emergency Operations Center (EOC). When necessary assign duties to all personnel;
• Follow established procedures in responding to urban search and rescue incidents; and
• Record disaster related expenses.

Responsibilities

• Manages search and rescue task force deployment to, employment in, and redeployment from the affected area;
• Coordinates logistical support for search and rescue during field operations;
• Develops policies and procedures for effective use and coordination of search and rescue;
• Provides status reports on search and rescue operations throughout the affected area; and
• Request further assistance from the local jurisdiction and Virginia Department of Emergency Management for additional resources.
