MOTION
Interim Enrollment in the Honors Academy

Referred by the Faculty Senate Executive Council

Motion:
The Faculty Senate recommends that prospective honors students continue to be invited to apply for admission to honors (based on current criteria). The number of newly admitted students should be consistent with the resources available to serve them.

Rationale:
Among other recommendations, last year’s Task Force on the Honors Academy recommended that, “available resources be increased to match the needs, or that enrollment be decreased consonant with available funding in efforts to significantly improve quality.” We anticipate that reduction of Honors Academy enrollment, at the discretion of the Honors Academy Director and Associate Director, may be a useful step in the interim period until new program recommendations have been made.
