Procurement Transaction Type Field descriptions:

- 10 - Equipment - Non-Technology- Procurements not meeting the technology equipment description that are not used up except through depreciation or wear and tear. Items would typically include: furniture, vehicles, machinery and other similar types of large objects. Agencies should use the 50% rule in determining whether procurements of equipment including labor for installation or servicing would be categorized as equipment or service.

  50% rule: The deciding factor is where the majority of the cost is expended - on the product itself or on the services related to making the product functional. Whenever the estimated cost of materials, equipment, or supplies amounts to 50% or more, it is not considered a service.

- 15 - Equipment - Technology- Procurements of technology equipment that are not used up except through depreciation or wear and tear. Items would typically include: computers, peripherals, etc. (Consult your IT department if you need more information).

- 20 - Supplies - Non-Technology- Procurements not meeting the technology supplies description that would include all types of consumables such as: food, clothing, fuel, medical supplies, athletic supplies, office supplies, replacement parts, hardware supplies, printer supplies, etc.

- 25 - Supplies - Technology- Procurements of technology supplies that would typically include: software, replacement parts, consumables, etc. (Consult your IT department if you need more information).

- 30 - Non-Professional Services - Non-Technology- Procurements of activities performed by independent contractors not found under the description for technology or professional services that do not consist primarily of the acquisition of equipment or materials, or the rental of equipment, materials and supplies. Items would typically include: maintenance agreements, custodial services, grounds maintenance, banking/collection services, advertising/public relations, security services, food service, vending, hauling/moving/transportation, conference facilities, insurance, and rental of equipment with operators. Agencies should use the 50% to determine the type of procurement (service or equipment).

- 35 - Non-Professional Services - Technology- Procurements of activities performed by independent contractors not found under the description for non technology or professional services that do not consist primarily of the acquisition of equipment or materials, or the rental of equipment, materials and supplies. Items would typically include: maintenance agreements, consulting services, trainers, etc.
