Please be sure to request electricity on your application so we may locate your booth accordingly. Early registration is encouraged due to a limited number of electrical circuits. Each vendor who elects to receive electrical service will receive: 1 – 120 Volt, 20 Amp Circuit with a duplex GFCT receptacle (2 plug-ins). Only one circuit will be provided per vendor. 20 Amps is the maximum circuit available. Receptacles will be placed close to the vendor’s booth, extension cords will not be provided and each vendor is encouraged to bring their own extension cords. Vendors must request and pay for electrical service at the time of application. If not requested and paid for you will absolutely NOT be provided with electrical service.
