Zero-Waste Event Takes Out the Trash

Radford University hosted its first zero-waste event as part of Welcome Back Reunion Weekend on Oct. 2, and ended the occasion with less than a pound of trash destined for the landfill. The soccer tailgate, hosted by the RU Alumni Association, in partnership with RU Sustainability and Chartwells, was able to divert almost 100 percent of its waste from the landfill, while generating 8.2 pounds of recyclables and 39.2 pounds of compostables, according to Julio Stephens, RU sustainability coordinator.
