I. APPLICABILITY OF THE A/E MANUAL:

The Commonwealth of Virginia Construction and Professional Services Manual – 2004 Edition, Chapters 1 through 10 (the A/E Manual) shall apply to the contract awarded pursuant to this RFQ and is incorporated by reference herein in its entirety.

Proposer's attention is directed to Chapter 2, Definitions, for definitions of terms used in this RFQ. The terms "Agency" and "Owner" are used interchangeably in the material referenced in this RFQ and mean the public body issuing this solicitation for services and with whom the successful A/E Proposer will enter into an agreement. For purposes of clarity and uniformity in this RFQ, only the term "Agency" will be used herein.

Proposer's attention is also directed to Chapter 3, General Terms and Conditions for Professional Service Contracts.

II. PURPOSE:

The Agency often needs professional architectural/engineering assistance for discrete, small projects such as investigations, studies, reports, design of small projects, and related services. The aim of this RFQ is to solicit statements of interest and qualifications from A/E's who will agree to be available to provide these services in a timely manner, thereby reducing the Agency's cost and time for advertising and developing numerous RFQ's/RFP's, and generally to increase the Agency's efficiency in obtaining professional services.

Requests for services will be provided on an "as needed" basis per Chapter 4, Section 410, Procedures for Category B of the Construction & Professional Services Manual – 2004. Responding to this RFQ does not represent or guarantee a contract award from the Agency.

III. AGENCY'S RIGHT TO ISSUE RFQ'S AND CONTRACTS:

The Owner reserves the right, at its sole discretion, to issue RFQ's/RFP's for similar work, for other disciplines or types of work, and for other projects as the need may occur.

The Owner also reserves the right to issue Contracts to other A/E's under Category B procedures at its sole discretion, based on its evaluation of each A/E's qualifications, expertise, current workload, capabilities, performance record, location or distance to the project, and other factors as may be pertinent to the particular project.

IV. SCOPE OF SERVICES:

The responding A/E shall furnish all expertise, labor and resources, in accordance with the requirements of the Construction & Professional Services Manual – 2004, to provide complete services necessary for individual contracts issued. The A/E shall not, however, be prohibited from participating in competitive negotiations for the procurement of such services if the Agency should issue a single project RFP.
