Mission Statement:

We, the people of the Women's Studies club, wish to create a more positive environment, promoting justice and equality for all people regardless of class, ethnicity, gender, race, religious beliefs, sex, or sexuality. We wish to educate ourselves, as well as others on issues that directly impact women locally and globally. We wish to breakdown stereotypes, prejudices, and assumptions that hinder people from living freely and comfortably as individuals.

Voting/Offices:
In the Fall we start with volunteers to serve as officers and then take a vote. If officers are graduating/want to step down, we do the same in the Spring. We always have a President, but VP, Secretary and Treasurer depend on student availability and willingness to serve any given year.
