New Global Communications Center

Mission:

1. Promoting Global Unity through the *Constitution for the Federation of Earth*
2. Creating peace and reducing militarism worldwide
3. Protecting our planetary environment
4. Combatting extreme poverty, economic slavery, and human trafficking

We are organizing a global communications center located within the offices of Swami Agnivesh in downtown Delhi. This center will use social media (Facebook, Twitter, Email lists, and other resources) to promote the *Earth Constitution* as an ideal by which humanity can move from fragmentation, war, and social injustice toward peace, freedom, justice, and sustainability for our planet.

The key to world peace is communicating to millions of people inexpensively but effectively through electronic communications.

The center will include:

- (1) Advanced computer technology for great range and effectiveness,
- (2) Two dedicated technological experts and one assistant will staff the center.

These workers will also coordinate with WCPA members worldwide concerning the promotion of world peace with justice and sustainability under the Earth Constitution.

We need to raise \$100,000 for launching this: for staff, computers, and server space rental. Once started, it will be self-sustaining. Tax-deductible donations within India can be made to Dharma Pratishtan on line at www.swamiagnivesh.com. Donations outside of India can be made to the Institute on World Problems at www.worldproblems.net.

All donors will be listed on the big sign at the center and honored with the following titles:

Peace Activist:	Up to U.S. \$300
Global Citizen:	\$300 to 999
World Partner:	\$1000 to 4999
World Ambassador:	\$5000 to 9999
Global Visionary:	Over \$10,000
