average age 20.5

ALL: 133

number of people

Instructions: I've done enough calculations to give you ideas for a spreadsheet. See the various percentages in color blocks. Feel free to check my formulas. If you want to do any sorting by department or class year, you will need to use the spreadsheet. To make the calculations work, I did fix some entries for students with missing data. And I caught a few places where people typed numbers over the formulas.

Questions you might ask:
 What states other than Virginia were students from?
 What Virginia cities other than Radford?
 Which Virginia city had the most after Radford?
 Which Virginia region had the most after New River Valley?
 You can use data-sort to answer these questions
 (Do the sorting and calculation on a COPY of this file.)

ed the morning after the 2009 election."
 ed up by the two files of quotes and comments.
 adford students did X, some of them told interviewers their reason was..."
 election for comparison.
 : use enough to make your point.
 than two-thirds..." "Most..." "Almost none..." etc.
 it carefully. Check all AP style.
 end.
 inother interview to the story.
