STUDENT INTERNSHIP AGREEMENT

I, the undersigned student, agree to accept an internship with the agency named below. If I am placed in a paid position, I agree to accept the rate of pay stipulated below.

I enter into this internship agreement with the full knowledge that the internship agency has committed considerable time and resources so that I can develop vocational competence through the internship. I further agree to comply with the following conditions of the internship:

CONDITIONS OF INTERNSHIP

Time

The student intern must be on the job regularly and punctually. Interns have the same responsibilities and obligations as other regular employees of the organization. Interns may not ask their employer for or take time off from work for any university requirements without first consulting with your RU faculty supervisor. Students are responsible for scheduling their coursework and internship work hours so that there are no conflicts.

Absence from Work

The tasks performed by students in their internships are part of a carefully planned and scheduled program of work. A student's absence from work necessitates replanning and rescheduling of important activities. In case of sickness or other emergencies that require an intern’s absence from work, the employer should be notified as early as possible. If an absence will cause the student to miss a full week or more, then his/her faculty supervisor must also be notified. Family and personal vacations do not constitute a valid reason for missing work.

Layoff

Any student intern, who is permanently or temporarily laid off or terminated, must notify the Radford University School of Communication faculty supervisor.

Discharge or Desertion

A student who leaves the internship without prior approval of RU supervising faculty or who conducts themselves on the job so as to cause termination will be subject to disciplinary action which could result in suspension from the university.

Failure on Job

Any student who, although not discharged immediately by the employer, fails to perform in a satisfactory manner shall be brought before the proper academic committee for appropriate action. A grade of “F” will be assigned.

Finding Jobs

Under certain conditions, the student may be permitted to work on a job that he or she has found. He/she must petition his/her Internship Supervisor for approval of such work before accepting the job. The student is expected to conduct himself/herself in this internship in the same manner as in any job. Approval of the petition is based on the following considerations: (1) The job of the student's own finding must be the equivalent (in training potentialities and application to the student field of study) of any job that the department can provide for the student. (2) Existing assignments with internship employers must be given priority.

It is understood that during the period of the internship, the student is to give primary concern to the accomplishment of internship objectives and secondary concern to his/her status as employee.
Health Problems

The student may occasionally have a health problem which will have a significant effect on his/her placement in an internship. It may be a physical defect which will hurt his placement possibilities, or it may be a condition requiring extensive or unusual medical or surgical treatment. In some cases, it will require removal from a particular internship or a leave of absence for all or part of a semester. Regulations require that the student discuss the problem with his/her Internship Supervisor and write a petition for appropriate action. The Internship Supervisor may refer the student to the university health department, where, after an exchange of information with the family physician, a judgment will be made with respect to the legitimacy of the request. In most cases, the student will be asked to sign a statement releasing the health information so that the health department may disclose the necessary facts to the Internship Supervisor. Also, the Internship Supervisor is given permission, through the signed statement, to use the information with potential or existing employers to the best advantage to the student. Whenever surgical or medical treatment is elected, the student must petition in advance. When emergency conditions prevail, the petition must be filed with the Internship Supervisor as soon as possible after the emergency.

PROFESSIONAL LIABILITY

Radford University students who are engaged in internships under the teaching supervision of University faculty, whether on or off campus, are protected by the state's self-insured medical malpractice coverage or by the state's self-insured liability coverage. The student must be engaged in activities which are in the approved course practicum. Activities outside the approved course practicum are not covered.

PERSONAL INJURY

I agree to indemnify and hold Radford University harmless from any and all claims of injury to myself arising from or connected with my placement as intern with the agency named below.
