

# INTERNATIONAL STUDIES

## Senior Project

Instructions: Attach a one-to-two page narrative describing the nature of the project you propose to undertake and how this project ties in with the course work and travel-study abroad experience you have taken as part of the Minor in International Studies.

Included in the narrative should be a thorough discussion of how the project will be evaluated, what deadlines have been set, and how the final grade will be determined. Only one instructor will be listed as the Instructor of Record and will be responsible for turning in the final grade, but several may be included in the evaluation process if need be.

This course may be taken only by students as part of their program of study in the Minor in International Studies. The narrative and this signature cover page must be submitted to the Chair of the Committee on International Studies (CIS) the semester before a student intends to register for the course. The CIS will evaluate the proposal's relevance to the student's focus area and its equivalency as three hours of college credit (i.e. it should involve approximately 96 hours of total work). A student can register for this course only after CIS approval and after a copy is placed on file in the registrar's office.
