
Sound&Story

PROJECT

of the Hudson Valley

Dear Kathleen,

Thank you so much for sharing the Floyd County High School Place Based Oral History Project Manual. It is clear that a lot of work and thought went into the production. I have not often seen such thoroughness of documentation and clarity of instructions that is present in this manual. It sets a high standard as a model that other school and community oral history projects can follow.

Floyd is fortunate to have this important part of its history saved and accessible to generations to come.

Best,

Eileen McAdam
Director
