This position may involve several different aspects of the Bioventus IT Enterprise Architecture, depending on the candidates technical and business expertise. Current back-log projects may include Master Data Management / data cleansing, reporting, data visualization, ETL development, business analysis for a new product launch in our ERP (SAP) environment, or potentially participating in a business streamlining / transformation project. The Bioventus IT intern will work in a highly collaborative, environment responsible for demonstrating a strong entrepreneurial thought leadership. Potential roles may include:

- Documenting business process workflows and data flow diagrams
- Assist the Enterprise Application Team (SAP, Vertex, Paymetric, etc) as a business analyst.
- Status reporting, milestone tracking / general support for the Project Management team
- Dashboard creation, maintaining
- Data Analytics / Business Objects / Crystal Reports
- Master Data Management
- ETL (SAP to Data Warehouse) Development
- Middleware development
- Support in continuous improvement / transformational initiatives

Qualifications:

The Bioventus IT intern must possess the following skill sets to be successful:

- Seen as a credible business colleague (leader) by both business and IT peers.
- Strong organizational change management skills
- The Intern must possess excellent communication & influencing skills and be able to clearly convey information and ideas.
- Work effectively in a collaborative, fast paced, fun environment and foster teamwork with their peer group, their team and with business / functional leaders.
- Background in information technology, development, data analytics, or cloud environments (Bioventus is 90% cloud based in terms of application suite)
- Possess strong analytical and process skills
- Broad / General understanding of Life Sciences / Medical Device manufacturing

The above description is intended to describe the general content, identify the essential functions of, and requirements for the performance of this internship. It is not to be construed as an exhaustive statement of duties, responsibilities or requirements. All interns shall be required to complete a Goals & Objectives (G&O) upon joining Bioventus that will lay out their planned goals, measures, and timeline for the internship.
