

## Entry Level Applications Developer

CGI is seeking graduating students interested in careers in the Information Technology field. CGI is more than just an IT consulting company; we are a global organization offering a world of opportunities. Become part of a unique culture that gives you the freedom to innovate, to make decisions, to achieve your full potential and to chart your own career.

Our Entry-Level Applications Developers typically have a demonstrated interest in information technology and business, strong problem-solving abilities, and excellent interpersonal skills. Applications Developers will be placed on one of our many projects and could be doing a number of different tasks.

### What you'll need:

- Recent graduates or will graduate from a 4-year institution by August 2015
- Academic background in computer science, computer engineering or a similar major with extensive computer-based or technical content
- Experience with C++, J2EE, Java, C# and/or .Net development
- A great attitude and hunger for learning
- Excellent analytical, written and oral communication skills
- Flexibility and ability to deal with ambiguity
- Ability to work within a team environment
- 3.0 GPA is preferred
- Ability to work in the U.S. for an indefinite period of time

**What you'll do** (assignments may include responsibilities in one or more of the following areas):

- Systems design- Analysis of a system's requirements to create a design, system components and a working model.
- Systems and applications development- Conversion of information from design specifications to programming code. Writing specific programs by analyzing workflow charts and diagrams and applying knowledge of computer capabilities to satisfy system requirements.
- Data design and database administration- Analysis, classification and maintenance of an organization's data and data relationships. Developing data models necessary to support a system's functions and operations. Defining and maintaining data security and integrity.

### What you'll gain:

- Involvement in the technical components of a client project
- Exposure to business issues and challenges
- Opportunity to leverage your computer knowledge and analytical skills

Join our team and experience the commitment at CGI!

CGI IS AN EQUAL OPPORTUNITY EMPLOYER

### CGI PROFILE

CGI is in the business of satisfying its clients by helping them succeed. Since its founding in 1976, CGI has operated upon the principles of sharing in its clients' challenges and delivering quality services to address these challenges. CGI precisely measures the level of satisfaction of its clients, everywhere around the world, on a scale of 10. The average satisfaction score for the last 10 years has always been higher than 9/10.

A leading IT and business process services provider, CGI has a strong base of 69,000 professionals operating in 400 offices in 40 countries. CGI stands apart through its client proximity model, which enables it to offer locally to clients a full range of services while providing them access to the CGI network of global centers of excellence.
