MEMORANDUM

TO: Members of the Board of Visitors

FROM: Brian O. Hemphill, Ph.D.
President

DATE September 27, 2019

RE: President’s Report

It is an honor to begin by reporting by acknowledging our new Board of Visitors members. While this is the first quarterly meeting on campus for Mr. David A. Smith ’85, M.S. ’87, he attended the annual Summer Board Retreat, which was held in early July, and several other University events as a representative of the Board. Mr. Smith is no stranger to this campus as he is a two-time graduate and proud member of the Radford University Athletics Hall of Fame. Mr. Smith, along with his wife, Pebbles, also a graduate, received the Radford University Alumni Association Outstanding Service Award in 2017. Mr. Smith is also serves on the Athletic Foundation Board of Directors. Residing in Roanoke, Virginia, Mr. Smith serves as a Territory Sales Manager with Altria Group Distribution Company. And, today, we are pleased to officially welcome our newest Board member, our Student Representative Breon Case. Like each of you, I look forward to the contributions and perspectives of our newest Board members.

Highlander Family Tour
This past spring and over the summer months, First Lady Marisela Rosas Hemphill, Ph.D. and I were honored to host the Highlander Family Tour. We celebrated and reminisced with alumni and friends in the following areas: Bristol as our first stop; Raleigh; Atlanta; Charlotte; Roanoke; Virginia Beach; Richmond; and Centreville as our final stop. Each stop was exciting and unique as we provided an update on the University, highlighted a student and awarded the Spirit of the Tartan. I appreciate the attendance and support of the Board members who were able to attend one or more of these events, including the one held at The Cavalier in conjunction with our annual Summer Board Retreat.

Summer District Visits
In addition to the Highlander Family Tour, I have been traveling across the Commonwealth this summer and fall to meet with members of the General Assembly in order to advocate for Radford University. In my travels to local districts, I have met with delegates and senators to obtain support for the University’s highest capital outlay priority, the Center for Adaptive Innovation and Creativity.
Based on my meetings to date, I am optimistic that we will secure full funding as part of the 2020 session based on the availability of a major bond issuance by the Commonwealth of Virginia. The project seeks to demolish both Porterfield and McGuffey Halls to construct a new, approximately 178,000-square-foot facility to address failing infrastructure concerns, while taking the opportunity to offer an innovative approach to health education. The project was initially included in Chapter 2 and appropriated with $4 million from institutional resources to initiate detailed planning. Thus, planning efforts initiated in July 2018 and are near completion. The project submitted cost estimates to the Division of Engineering and Buildings (DEB) on June 10, 2019 was $97.8 million. The project is ready for full funding and to proceed with construction.

The Center will address an array of significant existing programmatic and building deficiencies across a number of academic colleges. The multi-story building will include state-of-the-art instruction; laboratory, maker, studio, computer and collaborative spaces that integrate the arts and health sciences; and office and other academic support functions. Specialty spaces will include an instructional auditorium and support spaces, health science clinical lab spaces, painting and drawing studio spaces and music and dance studio spaces. The project will be located in a prominent area of campus directly adjacent to East Main Street and will respond aesthetically to the existing buildings along this important campus corridor.

2019-2020 Academic Year Kick-Off

Our back-to-school activities brought much anticipated excitement to campus. Consistent with the practice of the past two years, I attended each college meeting and shared various updates about our continued focus on the success of our students, our programs and our University. Along with Interim Provost and Vice President for Academic Affairs Kenna Colley, Ed.D., I hosted Fall Convocation for faculty and staff at which time we presented awards to deserving faculty and staff. Later that same week, we hosted New Student Convocation in Roanoke at the Berglund Center and in Radford on the lawn in front of McConnell Library. The main campus event included the customary class photo and picnic. Since the beginning of the academic year, the Radford family has joined together for numerous events, including:

• **New Faculty Reception:** On August 19, 2019, the First Lady and I welcomed the University’s newest faculty members into our home and into the Radford family. This has become a special tradition at Radford University and one that begins a new faculty member’s Radford journey and dedication to our students and our community.

• **Merger Celebration Cookout:** On August 23, 2019, the First Lady and I hosted approximately 100 individuals to provide our sincere appreciation for their diligent efforts to make the Jefferson College of Health Sciences merger a reality. During the cookout, members of the Steering Committee and the subcommittees joined together to reflect on our 18-month journey. A representative from each subcommittee came forward to provide their reflections on all that was accomplished.

• **All Faculty Reception:** On August 29, 2019, the First Lady and I were honored to welcome all faculty to our home for a reception. This was the second year in which all faculty were invited to the Governor Tyler House.

• **Club Fair:** On August 30, 2019, the Division of Students Affairs hosted more than 200 clubs, organizations and offices as thousands of students walked around Moffett Lawn looking for opportunities to get involved in campus life.
• **All Student Cookout:** On September 3, 2019, my family and I were pleased to invite all Radford University students to our home for a picnic. This was the second year in which all students were invited to the Governor Tyler House.

• **Open Forum for Classified Staff and Administrative and Professional Faculty:** On September 4, 2019, I hosted an open forum to provide a general University update and obtain feedback on the employee experience across many divisions and offices.

• **Business Leaders Reception:** On September 5, 2019, the First Lady and I hosted local and regional business leaders, along with members of the University’s leadership team, at the Governor Tyler House.

• **Retired Faculty Reception:** On September 9, 2019, the First Lady and I welcome retired faculty to the Governor Tyler House. This event represented the fourth Retired Faculty Reception, which was a tradition I began during the first year of my presidency.

• **Open Forum for RUC Faculty and Staff:** Earlier this week, I hosted the first open forum for faculty and staff at Radford University Carilion. After providing a brief presentation, I heard feedback on our progress to date and ideas for the future.

• **Family Weekend:** This past weekend, we hosted Family Weekend as a stand-alone event, thereby allowing us to provide the very best experience for our students and their families. This year’s event featured Saturday hours for various campus offices; a family photo shoot; a movie night; a hike; a dog show; planetarium shows; a fashion show; a family focus group; and so much more.

• **Venture Lab Ribbon Cutting and Formal Opening:** Yesterday morning, I was honored to be joined by Board members in officially opening the Venture Lab, an innovative concept in our five-year strategic plan, which is housed in the lower level of the Davis College of Business and Economics and will serve the entire campus.

• **Honors Student Reception:** Yesterday evening, the First Lady and I were honored to be joined by Board members as we hosted students from the Honors College.

**Highlander Discovery Institute**

At the inaugural event of the Highlander Discovery Institute held on September 19, 2019, students, faculty, staff and members of the community experienced an insightful discussion focused on the nexus of politics and society. The event featured three renowned individuals: Katie Couric as the moderator and Donna Brazile and Ana Navarro as panelists for “Exploring the Nexus of Politics and Society.” During the thought-provoking and inspirational 90-minute discussion before a near-capacity auditorium, difficult and challenging topics were explored from gun control to global warming, polarizing politics and the role of media in society. However, the panelists were able to express views without interrupting each other or showing disrespect. It was truly an opportunity to observe civil discourse in action.

Following the inspired panel, various discussions were held to further the evening’s transformative experience in nearby Young Hall. The discussions invoked all academic aspects from across Radford University with topics such as “Social Media and Politics,” “America’s Role in the World,” “Transformative Politics of the Arts” and “The Political Landscape in Virginia.” I would like to take this opportunity to thank the following Board members: Bob Archer; Tom Brewster; Georgia Ann Snyder-Falkinham; Rachel Fowlkes, Ed.D.; Mark Lawrence; David Smith; Jake Fox, Ph.D.; and Breon Case; who were in attendance for this special opportunity and memorable experience for our campus and our community.
The success of our inaugural event has set a high bar for future events of the Highlander Discovery Institute. I have received so many positive comments about the inaugural event and an overall excitement for what is next. I would like to acknowledge the Highlander Discovery Institute Steering Committee Co-Chairs Tim Channell, Ed.D. and Angela Joyner, Ph.D. for their strong leadership, as well as the Steering Committee and event staff for their outstanding efforts.

Funk & Associates has a keen understanding of the critical role this position plays and has conducted many Provost searches for other major institutions across the country, including, but not limited to: Clemson University; Emory University; Mississippi State University; Ohio State University; Texas A&M University; University of Arizona; University of North Carolina-Chapel Hill; and countless other institutions varying in both scope and size.

Funk & Associates visited campus in late August, spending time in both Radford and Roanoke. As part of their visit, the Search Committee was formed and held its initial meeting. The Committee, co-chaired by Faculty Senate President and Professor of Anthropological Sciences Jake R. Fox, Ph.D. and Vice President for Finance and Administration and Chief Financial Officer
Chad A. Reed, represents the campus community and will be deeply engaged in this national search throughout the process. Membership includes the following campus stakeholders:

- Associate Professor of English Kevin Farrell, Ph.D. on behalf of Radford University Carilion.

The search will take place throughout the Fall 2019 semester, including off-campus interviews with semi-finalists and on-campus visits from finalists. Off-site interviews will be held during the week of November 11, 2019 with the finalists visiting campus the week of December 2, 2019. The selection and campus announcement will occur by January 2020, and a formal start date is to be determined.
Lastly, two other searches are underway at varying stages: Assistant Provost for Global Education and Engagement and the Dean of the School of Nursing. These processes will continue to move forward with active engagement from search committees and the campus community.

**Upcoming Campus Events**

Please mark your calendars for the Radford Highlanders Festival, which will return to campus on October 12, 2019 after being held off-campus for the last few years. And, Homecoming and Reunion Weekend will be held from October 25, 2019 through October 27, 2019. You are welcome and encouraged to attend any and all events, including the annual State of the University address to be held on October 25, 2019 beginning at 10:30 AM in Preston Hall’s Bondurant Auditorium. This will be the third time this event has been held in conjunction with Homecoming and Reunion Weekend providing an opportunity for our alumni and friends to join students, faculty and staff. During the annual address, I will provide an overview of our many accomplishments during the last academic year, as well as make a variety of announcements about our exciting work moving forward.

Also, our annual Advocacy Day in Richmond has been set for January 30, 2020. I hope that Board members will make plans to participate in this worthwhile event that is transformational for our students, educational for our legislators and rewarding as Board members.

This concludes my report.

Action Item
Approval of Radford University’s 2019 Six-Year Plan

Item:
Board of Visitors approval of Radford University’s 2019 Six-Year Plan as required by § 23.1-306.

Background:
In response to the requirements outlined in § 23.1-306 of the Code of Virginia, attached is a copy of Radford University’s 2019 Six-Year Plan submitted to the State Council of Higher Education for Virginia (SCHEV) by the stated deadline of July 1, 2019.

As a mandate established through the “Preparing for the Top Jobs of the 21st Century: The Virginia Higher Education Act of 2011” (TJ21) legislation, governing boards of each public institution of higher education shall develop and adopt biennially and amend or affirm annually a six-year plan for their institution. This requires the plans to be submitted to the State Council for Higher Education of Virginia by July 1 of each odd-numbered year and requires any amendments or affirmations to existing plans to be submitted by July 1 of each even-numbered year.

The 2019 Six Year Plan submission marks the fifth iteration of this exercise. The instructions and template to complete the six-year plan are usually provided by SCHEV in late spring, typically at the time of the May Board meeting. Due to this timeline, the University has historically submitted the plan, to SCHEV by the July 1st deadline and then has presented it to the Board for approval at the next scheduled meeting, which is usually held in September. In July, the University is required to present the plan to a group of State representatives. This group will further review the plans over the July and August months, and provide comments in early September for all institutions to respond with updates or revisions, as appropriate, by October 1st. This process was once again followed for the 2019 Six Year Plan submission.

In preparation of the submission, the University reviewed the previous 2018 Six Year Plan update and determined which of the existing initiatives would remain and which new initiatives would be added. The 2019 Six-Year Plan reflects the priorities of the University and the objectives and goals outlined in Virginia Plan for Higher Education. The plan is divided in two parts. Part I is an Excel template with five components that includes a new section for Tuition Predictability Plans, Finance-Tuition & Other Nongeneral Fund Revenue, Academic-Financial Plan, General Fund Requests, Financial Aid Plan, and an Economic Development component that is intended to capture the institution's active contributions to stimulate the economic development of the Commonwealth. Part II provides a narrative summary of the proposed strategies and an evaluation of the most recent biennial six-year plan.

The strategies identified in the University’s 2019 Six-Year Plan were developed collaboratively with the leadership of each operating division, and incorporate multi-year budget initiatives.
developed in the previous cycle. Divisions reviewed their respective submissions and updated strategies to align with current priorities and objectives. The academic strategies related to programmatic growth were developed by the Provost through the respective academic unit.

The Tuition and Fee Predictability Plan presents multiple scenarios ranging from no new general fund support to a substantial investment from the state for both Radford University and Radford University Carilion. The funding of the proposed strategies are subject to change unless incremental general fund support is received. Additionally, approval of tuition and fees is the responsibility of the Board of Visitors and may be adjusted based upon factors such as incremental general fund support, legislative requirements, projected enrollment growth, and prioritization of strategies to implement.

Approval of the Radford University 2019-20 Operating Budget

Item:
Board of Visitors approval of the Radford University 2019-20 operating budget.

Executive Summary:
Each year, the Vice President for Finance and Administration & Chief Financial Officer is responsible for presenting Radford University’s (the University) projected annual operating budget to the Board of Visitors for the upcoming fiscal year. The 2019-20 operating budget was developed in consideration of projected enrollment levels, actions taken by the Governor and General Assembly during the 2019 session, Board-approved tuition and fee rates, the strategic goals of the University, and the economic outlook.

Since the rollout of the 2018-2023 Strategic Plan: Embracing the Tradition and Envisioning the Future, a conscious effort has been underway to align institutional resources in support of strategic plan objectives. The collaborative process of budget development has helped provide the framework for which all divisions review operating priorities and align their actions with strategic goals of the University. The information collected during this process was instrumental in development of the University’s Six-Year Plan submission to the Commonwealth and further helps to frame the strategic direction of the institution.

The budget development process for 2019-20 focused heavily on the establishment of Radford University Carilion (RUC) through the merger with Jefferson College of Health Sciences. With this merger, the University took a bold step toward achieving its goal to garner recognition for signature academic programs in health sciences, healthcare, and human services across the lifespan, as stated in the University’s Strategic Plan. Both entities entered the merger from positions of strength with sound financials, sustained enrollment demand, and highly ranked programs. This endeavor could not have been successful without the support of stakeholders from across the Commonwealth, and a drive to increase the number of healthcare graduates over the next five years. The results of the merger incorporated an additional 152 full-time equivalent positions and $22,341,370 into the University’s budget.

The 2019 General Assembly session was largely focused on providing all Virginians with the opportunity of an affordable education. The legislative session was highlighted by the passing of the 2019-20 amended budget which provided a pool of $52.5 million to be used for Tuition Moderation Funding to each institution of higher education who elected to hold in-state undergraduate tuition rates flat to prior year rates. This initiative represents a substantial investment in Virginia’s students. The University received $1,659,000 of this funding. The General Assembly also included additional funding to increase the previously planned salary actions for 2019-20. This raised the increases to 3.0 percent for across-the-board actions for faculty, to 2.75 percent for across-the-board actions for staff, and to 2.25 percent for staff merit increase.
Giving full consideration to the aforementioned items, the 2019-20 operating budget demonstrates a judicious use of University resources. The proposed budget identifies key operating efficiencies that help to address mandatory and unavoidable cost increases while maximizing funding opportunities for strategic plan initiatives.

**Six-Year Planning Processes and 2019-20 Budget Development:**

The Virginia Higher Education Opportunity Act of 2011 (TJ21) was passed by the 2011 General Assembly and is based on recommendations from the Governor’s Commission on Higher Education Reform, Innovation and Investment formed through Executive Order No. 9 issued in March 2010. The TJ21 legislation requires institutions of higher education to prepare and submit a “Six-Year Plan” by July 1st each year in accordance with criteria outlined by the Higher Education Advisory Committee (HEAC).

As an integral part of the six-year planning process, the University’s internal annual budget development cycle provides the opportunity to reevaluate the essential needs for the upcoming fiscal year and outline divisional priorities for the outlying years. The budget development review engages key personnel and provides a consistent mechanism to prioritize funding requests and strategically aligns the institution’s long-range goals with projected resources.

The University submitted the preliminary 2020-22 Six-Year Plan to the State Council of Higher Education for Virginia (SCHEV) on July 1, 2019 and will submit the final plan after Board action on October 1, 2019. The University’s Six-Year Plan identifies the targeted objectives and strategies to achieve both Virginia and institutional goals, and provides a foundation for preparing tuition and mandatory fee recommendations for consideration by the Board.

**Enrollment Trend:**

Between 2009-10 and 2013-14, the University’s enrollment increased by 1,050 students. However, since 2014-15, enrollment in traditional undergraduate programs has begun to stabilize to prior levels and additional student classifications are diversifying the enrollment portfolio. While total enrollment for 2019-20 is projected to be the largest ever for the University, the increase is from populations outside of the traditional undergraduate base of the University. The enrollment growth in the coming year is driven, in part, by a projected 1,100 additional RUC students added as a result of the merger with Jefferson College of Health Sciences and an additional 1,062 students enrolled in the University’s Competency Based Education (CBE) programs. Overall, undergraduate students are predicted to decrease by 307 from 2018-19 to 2019-20. This decrease, coupled with the dramatic increase in other student populations, represents a significant change in the enrollment classifications of the University population. The charts below show enrollment trends and identifies the fall enrollment since 1992 by student classification.

Mandatory Cost Increases:

2019 General Assembly Session Action

The 2019 General Assembly’s legislative session was largely focused on affordability of education for future generations of students. Governor Northam and the General Assembly made a substantial investment in students from the Commonwealth through their Tuition Moderation Plan, which provides base funding in lieu of tuition rate increases. This progressive approach to funding mandatory cost increases provides much needed relief to students in a time of rising student debt. The following schedule reflects the anticipated funding from the 2019 General Assembly Session, which provides additional general fund support for the University in 2019-20:

Notes:
Central Appropriation amounts are not included in the University's line item appropriation. Instead they are held centrally by the Commonwealth and allocated after the start of the fiscal year. For this reason estimates have been provided.

Degree Production Initiative: General fund support of $1,028,460 designated to address increased degree production in Data Science and Technology, Science and Engineering, Healthcare, and Education.

Tuition Moderation: Funding offered to hold In-State Undergraduate Tuition rates flat to 2018-19 rates. This is base funding provided to address affordability for Virginia students.

In-State Undergraduate Financial Aid: General fund support of $994,206 for need-based Undergraduate Student Financial Assistance. The allocation of financial aid resources are important for the University and will assist in lowering the cost of higher education.
**Other Mandatory Costs** –

In addition to the legislatively mandated items, the University must also address teaching and research faculty promotion and tenure contractual commitments, operation and maintenance of new and existing facilities, contractual escalators for technology and maintenance contracts, and recovery rate changes. These initiatives, referred to as central cost commitments, combine to total \$348,310. For additional details, Attachment II provides a further breakdown of the mandatory cost requirements.

**Funding Sources and Cost Drivers:**

The Commonwealth’s policy for funding higher education is to fund 67 percent of the cost of education for in-state students. Figure 1 reflects the status of general fund support for the University’s educational and general (E&G) program from 2005 through 2020 (projected) in relation to this policy. Currently, general fund support for the E&G program is projected to be 43.7 percent for main campus in the 2019-20 fiscal year, and 38.3 percent including RUC.

As demonstrated in Figure 1, the 2019-20 projected E&G general fund split is significantly below the Commonwealth’s policy of 67 percent. The difference reflects funding of essential programmatic needs to support the University’s in-state student population.

**Figure 1: E&G General Fund Appropriation Historical Trend**

![Graph showing percentage of total E&G revenue from 2005 to 2020 (projected).]

Virginia Policy: 67%

*2020 with RUC

Figure 2 displays the E&G general fund and nongeneral fund trends between 2002 and 2020 (projected). In 2010, as a result of the economic downturn and the sustained loss of general fund support, students and their families began funding the majority of the cost of education. The increase in nongeneral funds for 2020 relates primarily to the merger with JCHS and the related $20.6 million in Tuition and Fee revenue associated with the new RUC site. There is also an increase in general funds related to the \$1.7 million allocation to RUC, as well as, infusion of support for Tuition Moderation Funding, and other mandatory cost increases.
Proposed Budget

2019-20 Projected Total Revenue

Radford University’s institutional budget is derived from two fund sources:

- **General Fund** (GF) – Virginia tax dollars (unrestricted), distributed through the Commonwealth’s budget process and documented through the Virginia Acts of Assembly (i.e. Appropriations Act).

- **Nongeneral Fund** (NGF) – tuition, mandatory (technology and comprehensive) fees, user (room and board) fees, other E&G and auxiliary enterprises fees, grants/contracts/research, federal student work study, and commissions (e.g. dining services, bookstore, laundry, etc.).

For fiscal year 2019-20 the University is projecting the largest total revenue budget in it’s history at $255.5 million. This reflects an 11.3 percent increase above the 2018-19 Adjusted Total Budget. The increase is attributable to incremental operating support and increased student financial aid from the Commonwealth, Board-approved fee rates, as well as, the addition of Tuition and Fees for RUC.

The majority of the University’s total operating budget (72.9 percent) is supported through nongeneral fund sources. The remaining 27.1 percent is supported through the general fund. Figure 3 displays the breakdown of projected revenue by major funding sources.
2019-20 Projected Total Expenditures

Expenditures are expected to total $247.2 million for 2019-20. Projected expenditures are set less than projected revenues due to required Auxiliary Enterprises reserve fund deposits that must be generated to meet the SCHEV guidelines for operating, equipment renewal and replacement, and capital projects.

Figure 5 illustrates projected expenditures for each of the major programs which include:

- **Educational & General (E&G):** Activities to provide instruction, research, public service, academic support (e.g., library, deans), student support services (e.g., admissions, financial aid, registrar), and program support (e.g., administration, institutional support, physical plant) services.

- **Student Financial Assistance:** Activities to provide financial assistance to Virginia students.

- **Financial Assistance for Educational and General Services Program (Sponsored Programs, Grants and Contracts):** Activities to provide additional resources for educational and general services through third-party grants, contracts, and research.
- **Auxiliary Enterprises**: Self-supporting activities to provide goods or services to students, faculty, staff, and visitors (e.g. residence halls, dining services, bookstore, athletics, student activities, etc.).

The E&G program represents 62.7 percent of the expenditures budgeted while Auxiliary Enterprises accounts for 28.2 percent. The remaining 9.1 percent is split between Student Financial Assistance and Sponsored Programs.

**Figure 4: 2019-20 Projected Expenditures by Major Program**

![Pie chart showing projected expenditures by major program](chart)

Attachment I and Schedules A and B provide an overview of the University’s proposed 2019-20 operating budget by major program. Attachment I details the 2019-20 Funded E&G Initiatives by Division, Schedule A provides an overview of the 2019-20 Total University Operating Budget, and Schedule B reflects the 2019-20 Auxiliary Enterprise Budget by major program area.

The following is a narrative description by major program to complement the financial information presented in Attachment I and Schedules A and B.

**Educational & General (E&G) Program**

The Educational and General (E&G) program supports instruction, academic support, libraries, public service, student services, institutional support, and operation/maintenance of the physical plant. The proposed 2019-20 E&G operating budget (base and one-time) totals $155.0 million. The projected increase in E&G revenue is primarily derived from incremental tuition revenue associated with RUC.
In 2019-20, the percentage of the E&G budget supported by general funds is projected to be 41.7 percent, or 37.2 percent if RUC is included in the calculation. The University is anticipated to receive $5.9 million in new general funds over the previous year for central appropriation adjustments, legislative mandated salary and fringe benefit rate increases, tuition moderation, degree production, and operational investments in RUC bringing total general funds to $57.7 million. Projected E&G nongeneral fund revenue is derived primarily from tuition and fees at $95.6 million with all other E&G revenue totaling $3.6 million.

**Resource Allocations**

During the May 2019 Board of Visitors meeting, programmatic priorities were outlined and incorporated into the proposed 2019-20 budget. Attachment I provides an overview of the E&G base budget initiatives funded in 2019-20. In addition, Attachment II illustrates the initial budget assumptions provided to the Board in May 2019, as well as, any changes that occurred prior to finalization of the actual 2019-20 operating budget.

**Student Financial Assistance Program**

Commonwealth support from the general fund is appropriated for scholarships and fellowships to undergraduate and graduate students. The authorized general fund appropriation for fiscal year 2019-20 is $11.6 million, an increase of $994,206 over fiscal year 2018-19. In addition to general fund support, the University continues to commit $1.9 million from institutional nongeneral fund resources to support undergraduate need-based financial aid.

**Financial Assistance for Educational and General Services Program (Grants/Contracts)**

The University receives external funding for grants and contracts from a variety of federal, state, private, and local sources. For fiscal year 2019-20, estimated annual activity for Sponsored Programs is projected at $8.9 million.

**Auxiliary Enterprises Program**

The Auxiliary Enterprises program supports student service activities such as residential life, dining, athletics, recreation, student health, and transportation. Funding for this program is generated from contract commissions and fees assessed to students and/or users. The Commonwealth requires Auxiliary Enterprises to be financially self-supporting. For this reason, general fund support and tuition revenue cannot be allocated to these activities.

For fiscal year 2019-20, the revenue budget for Auxiliary Enterprises is projected to be $77.9 million. It should be noted that all auxiliary budgets were adjusted to account for salary increases and fringe benefit rate changes, the alignment of indirect costs, and utility changes, as necessary.

It is projected that approximately $8.3 million will be generated in 2019-20 for reserve fund contributions which can be used for future debt service, maintenance reserve projects, and construction and/or renovation costs associated with future capital projects. The following are future considerations for auxiliary reserve balances: residence hall improvements, athletic complex renovations, equipment renewal and replacement, and land acquisition.

Master Plan 2020-2030

2018-2023 Strategic Plan Overall Impacts

• Specific goals incorporated into each sub-committee deliberation
• Overarching goal to grow student body 3% annually through 2023
generates traditional on-campus headcount of 10,500+/-

  ➢ Based on current space utilization and programs, the present campus
    building inventory can generally serve the needs - limited requirements
to grow basic campus academic footprint over the 10-year Master Plan
window
  ➢ Concentration on renovations and repurposing
  ➢ Specific added footprint needs to be reviewed as identified

• Provide expanded and varied academic delivery methods and tools for classes
Summary of Initial Discussions

- Include both on-campus and off-campus - RUC Roanoke campus, RHEC, SWVHEC, RU Corporate Park and Selu
- Investigate current space usage efficiency/utilization
- Review residences for multi-use (living-learning, non-traditional, new off-campus space, etc.)
- Better connect central campus to athletics/recreation campus
- Improve front door/campus perimeter and overall campus wayfinding
- Improve transportation and parking programs
- Incorporate/connect to City of Radford
Master Plan 2020-2030

Space Planning Study Information

Summary

- **Classrooms** - Inventory is strained during peak hours. Adjusting classroom capacity mix and scheduling practices may help alleviate the strain.

- **Class Laboratories** – None of the disciplines meet the study’s or SCHEV’s average utilization targets. Consider analyzing lab space needs in more depth and verify that labs are classified correctly.

- **Office Space** - Existing inventory should be sufficient. Consider standardizing office size when programming new space or reconfiguring existing space.

- **Overall** - NASF per Student FTE (124) is lower than expected for an institution similar to Radford (135-145).

Parking Study Information

Overall Observations
• Parking and transportation system is well organized and efficiently operated.
• Based on peer comparisons, parking count survey and total permits, there are adequate total parking spaces available (71% filled and 29% available at time of survey).
• Spaces are unevenly distributed, with respect to both location and type of permit.
• Condition and capacities of existing parking lots are in good condition overall.
• Transit buses run regularly to all campus and parking locations.

Items for Further Discussion and Analysis
• Create new lots at perimeter of main campus.
• Consider shorter circulator transit route that only serves campus perimeter, and one that only serves campus perimeter and remote lots.
• Consider redistribution of class times to spread out parking.
• Rework central campus lots to remove dead-ends.
Academics Sub-Committee

Strategic Plan Impacts

• Central Tutoring Space - completed with Harvey Knowledge Center in McConnell
• Create Center for Career and Talent Development - completed in Russell Hall
• Create on-campus space for Military Resource Center - completed in Russell Hall
• Create Student Venture Lab - completed in Kyle Hall
• Create Information Security Studies and Geohazards Research Centers - included in Reed-Curie renovated space in Spring 2020
• Create Center For Interprofessional Education and Practice - included in CAIC building program
Academics Sub-Committee

Student Activities and Services Sub-Committee

Sub-Committee Outcomes

• Based on the current residence hall inventory and proposed growth, existing on-campus residence hall capacity appears adequate over the 10-year Master Plan window.

• Norwood and Tyler identified as highest priority residence halls for renovations.

• Muse Hall identified as next priority - Banquet Room early project, rest in phases, new façade/aesthetic.

• Seek ways to integrate academics in residence halls - living-learning spaces, advising offices, faculty offices and classrooms.

• Renovate new off-campus housing to consistent standard.
Student Activities and Services Sub-Committee

Sub-Committee Outcomes

• Provide plenty of study/collaborative spaces all over campus

• Explore opportunities for the New River - RU Outdoors, recreation and event spaces

• Explore opportunities to offer thematic/Greek housing

• Work with City to improve off-campus retail/dining/other options
