CALL TO ORDER
Mr. Thomas E. Fraim, Jr., Rector of the Board, called a special session of the Board to order at 2 p.m., Thursday, September 16, 2010, in the Board Room in Martin Hall at Radford University.
Rector Fraim called upon President Kyle for opening remarks. President Kyle stated that at the May 2010 meeting of the Board, the RU administration was asked to provide a “best guess” financial outlook for the next five – seven years and how that outlook would affect tuition, fees, room and board during the same time period. President Kyle then asked Mr. Richard Alvarez, Chief Financial Officer and Vice President for Finance and Administration, and Dr. Joe Scartelli, Interim Provost and Vice President for Academic Affairs, to present the results of their work on this project.

Mr. Alvarez first provided a summary of revenues and expenditures for the year-ended June 30, 2010 and for the 2010-11 projected operating budget. He then provided charts and graphs on how Radford’s tuition, fees, room, board, and total cost compared with other Virginia public 4-year institutions and to the state average. The charts revealed how low Radford’s costs are when compared to the state average and to our peers. Mr. Alvarez also reported that Radford had one of the highest percentages of in-state student enrollments in the Commonwealth.

Mr. Alvarez produced a chart based on a State Council of Higher Education for Virginia (SCHEV) report on faculty salary peer funding needs which showed that 75 percent of Radford peers had a higher average faculty salary. It was noted that a number of Radford’s faculty were not even making the tenth percentile compared to their peers.

Dr. Scartelli then provided an overview of critical needs in the Academic Affairs areas, which was developed by the deans, department chairs and faculty. The critical needs amount was used as a “plug in” number in preparing five “What If” scenarios over a seven year period using varied enrollments and tuition and fee increases.

Mr. Alvarez stated that during the next twelve months more definitive figures would be available and modeling tools would be developed to aid the Board in tackling the ongoing budget issues.
