Assessment and Accreditation

I have spent a great deal of time preparing for and participating in accreditation site visits for programs in our college. In the space below, I summarize my involvement during the site visits and provide information regarding the accreditation status of each program.

CACREP
• Hosted site visit from September 22 – September 25.
• Participated in an interview with site reviewers on September 23.
• Attended the exit interview with site reviewers on September 25.

Note: The site reviewers were very complimentary of the COED programs, our faculty, and students! Of 209 standards, the site team identified only one as not met. The faculty
addressed this in their program response to the site visitor report, which was submitted in October.

We are proud to report that our programs in Clinical Mental Health Counseling and School Counseling earned eight-year accreditation! Congratulations to the entire COED faculty on this incredible achievement! I would also like to express special thanks to Drs. Hartig and Davis for their excellent leadership.

CAEP
• Wrote the self-study report addendum and submitted it on October 25.
• Created the schedule for the site visit.
• Arranged hotel accommodations and meals for site visitors.
• Held several meetings with program faculty and university supervisors to prepare them for what to expect during the site visit (September 13, September 30, October 18). During these meetings, we shared the site reviewers’ feedback to our self-study report, identified appropriate P-12 stakeholders to participate in the site visit, discussed the questions we anticipated site reviewers would ask during the interviews, and reviewed the site visit schedule.
• Hosted site visit from November 3 – November 5.
• Participated in several interviews with the site reviewers throughout the visit.
• Attended the exit interview with the lead site reviewer and state representative on November 5.
• Wrote the rejoinder and submitted it on January 28.

Note: We had a very successful visit! The site visitors noted the strong partnership between our programs and our P-12 schools. They were also complimentary of our students and alumni. During this accreditation visit, our initial licensure programs and advanced programs were reviewed. The site visitors did not recommend any stipulations or areas for improvement for our initial licensure programs. They did recommend one area for improvement for our advanced programs. The CAEP accreditation council is supposed to meet in April to determine the final accreditation decision. We anticipate receiving the full seven-year accreditation.

A special thanks to Mr. Joel Hanel who served as a consultant for us. I would also like to extend a very special thanks to Dr. Debora Bays Wilbon and Kathie Dickenson throughout this entire process. They provided extensive feedback and made revisions to the addendum and rejoinder. They also participated in several interviews. There is no way we would have made it through this process without their expertise and support!

ACEND
• Reviewed self-study report prior to its November submission.
• Hosted site visit from February 2 – February 4.
• Participated in an interview with site reviewers on February 3.
• Attended the exit interview with site reviewers on February 4.
Note: The Nutrition and Dietetics program had a very successful site visit! The site reviewers were complimentary of our program director, Mary Jean Miller. They noted her exceptional organizational skills and deep commitment to the program. They also noted our state-of-the-art labs and the fine preparation of our students. The written feedback we received from the reviewers is very positive. There are only a few standards that were identified as needing additional information. We will provide our response by May 4. The final accreditation decision will be made at ACEND Board meeting in January, 2021. We anticipate receiving the full accreditation.

Congratulations to the Nutrition and Dietetics program on a successful site visit. A very special thanks to Mary Jean Miller for her leadership and her excellent management of the Nutrition and Dietetics program! Well done!

CAATE

- Reviewed and provided feedback on the self-study report before it was submitted in July. Note: Athletic Training had to address 109 standards in this report!
- Hosted site visit from February 19 – February 21.
- Participated in an interview with site reviewers on February 20.
- Attended the exit interview with site reviewers on February 21.

Note: Our last and final accreditation site visit for the year was for the Athletic Training program. Again, this was another successful site visit. The site reviewers were complimentary of the experiences our program provides our students as well as all of the supports we have in place to help them be successful. Written feedback from the reviewers indicate that they could not determine compliance for only two standards. We will address these two items in a rejoinder that we will submit by June 26. The final accreditation decision will be made at a board meeting that will be held later this year. We anticipate receiving the full accreditation.

Congratulations to the Athletic Training program faculty on a very successful accreditation site visit! A special thanks to Dr. Michael Moore for his leadership of the program! Bravo!
