I. PURPOSE:

The purpose of this Request for Proposal (RFP) is to solicit proposals to establish a contract through competitive negotiations for event staffing services by Virginia Polytechnic Institute and State University (Virginia Tech), an agency of the Commonwealth of Virginia.

II. SMALL, WOMAN-OWNED AND MINORITY (SWAM) BUSINESS PARTICIPATION:

The mission of the Virginia Tech supplier opportunity program is to foster inclusion in the university supply chain and accelerate economic growth in our local communities through the engagement and empowerment of high quality and cost competitive small, minority-owned, women-owned, and local suppliers. Virginia Tech encourages prime suppliers, contractors, and service providers to facilitate the participation of small businesses, and businesses owned by women and minorities through partnerships, joint ventures, subcontracts, and other inclusive and innovative relationships.

III. CONTRACT PERIOD:

The term of this contract is for five (5) year(s), or as negotiated. There will be an option for two, two year renewals, or as negotiated.

IV. BACKGROUND:

Virginia Polytechnic Institute and State University (Virginia Tech) is located in Blacksburg, Virginia, approximately 40 miles southwest of Roanoke, Virginia, the major commercial hub of the area. In addition to the university’s main campus in Blacksburg, major off campus locations include twelve agriculture experiment research stations, the Marion duPont Scott Equine Medical Center and graduate centers in Roanoke and Fairfax, Virginia. Regularly scheduled air service is provided at the Roanoke Regional Airport.

Dedicated to its motto, Ut Prosim (That I May Serve), Virginia Tech takes a hands-on, engaging approach to education, preparing scholars to be leaders in their fields and communities. As the Commonwealth’s most comprehensive university and its leading research institution, Virginia Tech offers 240 undergraduate degree programs to more than 31,000 students and manages a research portfolio of nearly $513 million. The university fulfills its land-grant mission of transforming knowledge to practice through technological leadership and by fueling economic growth and job creation locally, regionally, and across Virginia.

Virginia Tech conducts approximately 50 to 75 events per year that require the services of a firm to provide staff to collect tickets, serve as ushers, conduct bag checks, provide unarmed security, and provide supervision of the overall process. Examples of events include collegiate football and basketball games, Virginia High School League championship games, small concerts and commencement ceremonies. The events typically take place at Lane Stadium, Cassell Coliseum, Burruss Hall and Squires Student Center. Other types of events and locations may occur. The average event duration is 3 hours. Attendance ranges between 500 and 66,000 people.

There will be requirements for overnight, unarmed security to protect and safeguard equipment, supplies and materials. There will also be requirement for pre and post-event assignments to secure parking lots and direct traffic within these lots.

Please note that all event staffing personnel shall be unarmed in the performance of their duties.

V. EVA BUSINESS-TO-GOVERNMENT ELECTRONIC PROCUREMENT SYSTEM:
The eVA Internet electronic procurement solution streamlines and automates government purchasing activities within the Commonwealth of Virginia. Virginia Tech, and other state agencies and institutions, have been directed by the Governor to maximize the use of this system in the procurement of goods and services. We are, therefore, requesting that your firm register as a vendor within the eVA system.

There are transaction fees involved with the use of eVA. These fees must be considered in the provision of quotes, bids and price proposals offered to Virginia Tech. Failure to register within the eVA system may result in the quote, bid or proposal from your firm being rejected and the award made to another vendor who is registered in the eVA system.

Registration in the eVA system is accomplished on-line. Your firm must provide the necessary information. Please visit the eVA website portal at http://www.eva.virginia.gov/pages/eva-registration-buyer-vendor.htm and register both with eVA and Ariba. This process needs to be completed before Virginia Tech can issue your firm a Purchase Order or contract. If your firm conducts business from multiple geographic locations, please register these locations in your initial registration.

For registration and technical assistance, reference the eVA website at: http://www.eva.virginia.gov, or call 866-289-7367 or 804-371-2525.

VI. CONTRACT PARTICIPATION:

It is the intent of this solicitation and resulting contract to allow for cooperative procurement. Accordingly, any public body, public or private health or educational institutions, or Virginia Tech’s affiliated corporations and/or partnerships may access any resulting contract if authorized by the contractor.

Participation in this cooperative procurement is strictly voluntary. If authorized by the Contractor, the resultant contract may be extended to the entities indicated above to purchase at contract prices in accordance with contract terms. The Contractor shall notify Virginia Tech in writing of any such entities accessing the contract, if requested. No modification of this contract or execution of a separate contract is required to participate. The Contractor will provide semi-annual usage reports for all entities accessing the Contract, as requested. Participating entities shall place their own orders directly with the Contractor and shall fully and independently administer their use of the contract to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract no matter the circumstances.

Please refer to Attachment B, Zone Map, if the offeror wishes to submit separate pricing structure based on approved zones for cooperative institutions. Refer to Attachment B for the approved Zone Map. If no other prices are offered, pricing provided will apply to all zones in the
Commonwealth. If you wish to provide pricing for a zone other than which this solicitation originated, please indicate you are doing so in the response. If you anticipate pricing differentials for different zones, a separate pricing sheet must be submitted for each zone that includes appropriate pricing for that zone.

Use of this contract does not preclude any participating entity from using other contracts or competitive processes as the need may be.

B. Provide all personnel, equipment, uniforms and incidentals necessary to provide event staffing services.

B. General Requirements

1. RFP Response: In order to be considered for selection, Offerors shall submit a complete response to this RFP to include;

   a. One (1) original and four (4) copies of the entire proposal, including all attachments. Any proprietary information should be clearly marked in accordance with 2.e. below.

   b. One (1) electronic copy in WORD format or searchable PDF (flash drive) of the entire proposal as one document, INCLUDING ALL ATTACHMENTS mailed along with the hard copy above. Any proprietary information should be clearly marked in accordance with 2.e. below.

   c. Should the proposal contain proprietary information, provide one (1) redacted hard copy of the proposal and attachments with proprietary portions removed or blacked out. This copy should be clearly marked “Redacted Copy” on the front cover. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable. Virginia Tech shall not be responsible for the Contractor’s failure to exclude proprietary information from this redacted copy.
Response shall be submitted to:

Virginia Polytechnic Institute and State University (Virginia Tech)
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

Reference the Due Date and Hour, and RFP Number in the lower left hand corner of the return envelope or package.

No other distribution of the proposals shall be made by the Offeror.

2. Proposal Preparation:

   a. Proposals shall be signed by an authorized representative of the Offeror. All information requested should be submitted. Failure to submit all information requested may result in Virginia Tech requiring prompt submission of missing information and/or giving a lowered evaluation of the proposal. Proposals which are substantially incomplete or lack key information may be rejected by Virginia Tech at its discretion. Mandatory requirements are those required by law or regulation or are such that they cannot be waived and are not subject to negotiation.

   b. Proposals should be prepared simply and economically providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be on completeness and clarity of content.

   c. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph number, subletter, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and subletter should be repeated at the top of the next page. The proposal should contain a table of contents which cross references the RFP requirements. Information which the offeror desires to present that does not fall within any of the requirements of the RFP should be inserted at an appropriate place or be attached at the end of the proposal and designated as additional material. Proposals that are not organized in this manner risk elimination from consideration if the evaluators are unable to find where the RFP requirements are specifically addressed.

   d. Each copy of the proposal should be bound in a single volume where practical. All documentation submitted with the proposal should be bound in that single volume.

   e. Ownership of all data, material and documentation originated and prepared for Virginia Tech pursuant to the RFP shall belong exclusively to Virginia Tech and be subject to public inspection in accordance with the Virginia Freedom of Information Act. Trade secrets or proprietary information submitted by an Offeror shall not be subject to public disclosure under the Virginia Freedom of Information Act. However, to prevent disclosure the Offeror must invoke the protections of Section 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data or other materials is submitted. The written request must specifically identify the data or other materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret material submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that
constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable and may result in rejection of the proposal.

3. Oral Presentation: Offerors who submit a proposal in response to this RFP may be required to give an oral presentation of their proposal to Virginia Tech. This will provide an opportunity for the Offeror to clarify or elaborate on the proposal but will in no way change the original proposal. Virginia Tech will schedule the time and location of these presentations. Oral presentations are an option of Virginia Tech and may not be conducted. Therefore, proposals should be complete.

Request for price adjustments for any other reasons will not be granted. No price increases will be authorized for 365 calendar days after the effective date of the contract. Contractor shall give not less than 30 days advance notice prior to the annual renewal of the contract of any desired price increase.

The Contractor shall document the amount and proposed effective date of any general change in the price of materials, labor and transportation. Documentation shall be supplied with the contractor's request for increase which will (1) verify that the requested price increase is general in scope and not applicable just to Virginia Tech, and (2) verify the amount or percentage of increase which is being passed on to the contractor by the contractor's suppliers. Failure by the contractor to supply the aforementioned verification with the request for price increase will result in a delay of the effective date of such increase. The Virginia Tech Procurement Department may verify such change in price independently. The Virginia Tech Procurement Department may make such verification as it deems adequate. However, any increase which the Virginia Tech Procurement Department determines is excessive, regardless of any documentation supplied by the contractor, may be cause for cancellation of the contract by the Virginia Tech Procurement Department. The Virginia Tech Procurement Department will notify the contractor in writing of the effective date of any increase which is approved. However, the contractor shall fill all purchase orders received prior to the effective date of the price adjustments of the old contract prices.

"Across the Board" price decreases are subject to implementation at any time and shall be immediately conveyed to Virginia Tech. The contractor is further advised that price decreases which affect the price of materials, labor, and transportation are required to be passed on to Virginia Tech immediately. Failure to do so will result in action to recoup such amounts.

PROPOSAL/BID ACCEPTANCE PERIOD: Any Proposal/Bid received in response to this solicitation shall be valid for 90 days. At the end of the 90 days the Proposal/Bid may be withdrawn at the written request of the offeror/bidder. If the Proposal/Bid is not withdrawn at that time it remains in effect until an award is made or the solicitation is cancelled.

PROPOSAL/BID PRICES: Proposal/Bid shall be in the form of a firm unit price for each item during the contract period.

RENEWAL OF CONTRACT: This contract may be renewed by Virginia Tech upon written agreement of both parties for two successive two year period(s), under the terms of the current contract, and at a reasonable time (approximately 90 days) prior to the expiration.
SAFETY: The contractor bears sole responsibility for the safety of its employees. The contractor shall take all steps necessary to establish, administer, and enforce safety rules that meet the regulatory requirements of the Virginia Department of Labor and Industry (VDLI) and the Occupational Safety and Health Administration (OSHA). The contractor shall take steps as necessary to protect the safety and health of university employees, students, and visitors during the performance of their work. In addition, the contractor must also provide the university with a written safety program that it intends to follow in pursuing work under this contract. By entering into a contract with Virginia Tech, the contractor and its subcontractors agree to abide by the requirements described in Safety Requirements for Contractors and Subcontractors located on Virginia Tech’s Environmental, Health and Safety Services (EHSS) web site at this URL http://www.ehss.vt.edu/programs/contractor_safety.php. A copy of the publication may also be obtained by contacting EHSS at 540/231-5985. No work under this contract will be permitted until the university is assured that the contractor has an adequate safety program in effect.

SECURITY LICENSE: In accordance with Section 9.1-138 et seq. of the Code of Virginia (1950), the offeror/bidder shall be licensed by the Department of Criminal Justice Services for solicitations which include the following work: installation, service, maintenance, or design of security equipment; security officer service; central station alarm condition monitoring service; and/or private investigator service. The vehicle operator shall be made aware that extreme caution shall be used to operate the vehicle in a way that will not be a hazard or hindrance to pedestrians using the walk. The contractor shall be responsible for any damage to turf and anything that is located adjacent to the walk. Parking an unattended vehicle on a sidewalk is strictly prohibited by State Law. The contractor is allowed to park a vehicle on a sidewalk if there is no other way to perform necessary work. The procedure to obtain a permit to operate a vehicle on sidewalks is the same as for the turf as outlined in Turf Policy. Any vehicle parked illegally on sidewalks shall be subject to ticketing, fines and towing if necessary.

*RFP #0060270*

Blacksburg, Virginia
Event Staffing Services
On behalf of our owners Billy D. Prim, Michele Wolfert and I, thank you for providing Rhino Sports & Entertainment Services the opportunity to serve you. We love sports and events and it is a big part of the fabric of our lives. Winning games, managing stadiums and having successful events are important; but the most gratifying part for us is serving clients like you and all your loyal fans. Whether it’s a parking attendant greeting a guest with a smile or an usher helping a family to their seats, the culture at Rhino Sports & Entertainment Services is focused on one thing: Unsurpassed Customer Service. Customer Service is more than a buzz word to us, it’s who we are. We are dedicated to providing excellent face-to-face interactions with the fans we proudly serve.

We are very excited about the prospect of being selected by you to be your sports and entertainment services provider. You have my commitment, that we will deliver to you the very highest quality customer service experience at the very best value. We look forward to meeting with you and the selection team to further discuss your needs. Please feel free to contact me with any questions you may have, and thank you again for the opportunity to serve you.

We feel we can increase the level of service your customers receive in all categories. The financial arrangements listed in each proposal are negotiable and we are open to more unique arrangements. We feel the traditional model of a dollar amount per hour is no longer the way to create lasting partnerships.

Having been the Assistant Athletic Director for Operations at Wake Forest University, I understand that changing staffing companies is a difficult decision. However, to achieve a new look, feel, and atmosphere, a full change is often necessary. Rhino Sports has a record of success and we are interested in partners like you that have decided to bring the customer service experiences at their sporting events to a higher level of excellence. We truly look forward to partnering with you to achieve an enhanced level of excellence for every fan.

Sincerely,

Brett Hickman

I. PURPOSE:

The purpose of this Request for Proposal (RFP) is to solicit proposals to establish a contract through competitive negotiations for event staffing services by Virginia Polytechnic Institute and State University (Virginia Tech), an agency of the Commonwealth of Virginia.

II. SMALL, WOMAN-OWNED AND MINORITY (SWAM) BUSINESS PARTICIPATION:

The mission of the Virginia Tech supplier opportunity program is to foster inclusion in the university supply chain and accelerate economic growth in our local communities through the engagement and empowerment of high quality and cost competitive small, minority-owned, women-owned, and local suppliers. Virginia Tech encourages prime suppliers, contractors, and service providers to facilitate the participation of small businesses, and businesses owned by women and minorities through partnerships, joint ventures, subcontracts, and other inclusive and innovative relationships.

III. CONTRACT PERIOD:

The term of this contract is for five (5) year(s), or as negotiated. There will be an option for two, two year renewals, or as negotiated.

IV. BACKGROUND:

Virginia Polytechnic Institute and State University (Virginia Tech) is located in Blacksburg, Virginia, approximately 40 miles southwest of Roanoke, Virginia, the major commercial hub of the area. In addition to the university’s main campus in Blacksburg, major off campus locations include twelve agriculture experiment research stations, the Marion duPont Scott Equine Medical Center and graduate centers in Roanoke and Fairfax, Virginia. Regularly scheduled air service is provided at the Roanoke Regional Airport.

Dedicated to its motto, Ut Prosim (That I May Serve), Virginia Tech takes a hands-on, engaging approach to education, preparing scholars to be leaders in their fields and communities. As the Commonwealth’s most comprehensive university and its leading research institution, Virginia Tech offers 240 undergraduate degree programs to more than 31,000 students and manages a research portfolio of nearly $513 million. The university fulfills its land-grant mission of transforming knowledge to practice through technological leadership and by fueling economic growth and job creation locally, regionally, and across Virginia.

Virginia Tech conducts approximately 50 to 75 events per year that require the services of a firm to provide staff to collect tickets, serve as ushers, conduct bag checks, provide unarmed security, and provide supervision of the overall process. Examples of events include collegiate football and basketball games, Virginia High School League championship games, small concerts and commencement ceremonies. The events typically take place at Lane Stadium, Cassell Coliseum, Burruss Hall and Squires Student Center. Other types of events and locations may occur. The average event duration is 3 hours. Attendance ranges between 500 and 66,000 people.

There will be requirements for overnight, unarmed security to protect and safeguard equipment, supplies and materials. There will also be requirement for pre and post-event assignments to secure parking lots and direct traffic within these lots.

Please note that all event staffing personnel shall be unarmed in the performance of their duties.

V. EVA BUSINESS-TO-GOVERNMENT ELECTRONIC PROCUREMENT SYSTEM:
The eVA Internet electronic procurement solution streamlines and automates government purchasing activities within the Commonwealth of Virginia. Virginia Tech, and other state agencies and institutions, have been directed by the Governor to maximize the use of this system in the procurement of goods and services. We are, therefore, requesting that your firm register as a vendor within the eVA system.

There are transaction fees involved with the use of eVA. These fees must be considered in the provision of quotes, bids and price proposals offered to Virginia Tech. Failure to register within the eVA system may result in the quote, bid or proposal from your firm being rejected and the award made to another vendor who is registered in the eVA system.

Registration in the eVA system is accomplished on-line. Your firm must provide the necessary information. Please visit the eVA website portal at http://www.eva.virginia.gov/pages/eva-registration-buyer-vendor.htm and register both with eVA and Ariba. This process needs to be completed before Virginia Tech can issue your firm a Purchase Order or contract. If your firm conducts business from multiple geographic locations, please register these locations in your initial registration.

For registration and technical assistance, reference the eVA website at: http://www.eva.virginia.gov, or call 866-289-7367 or 804-371-2525.

VI. CONORT CONTRACT PARTICIPATION:

It is the intent of this solicitation and resulting contract to allow for cooperative procurement. Accordingly, any public body, public or private health or educational institutions, or Virginia Tech’s affiliated corporations and/or partnerships may access any resulting contract if authorized by the contractor.

Participation in this cooperative procurement is strictly voluntary. If authorized by the Contractor, the resultant contract may be extended to the entities indicated above to purchase at contract prices in accordance with contract terms. The Contractor shall notify Virginia Tech in writing of any such entities accessing the contract, if requested. No modification of this contract or execution of a separate contract is required to participate. The Contractor will provide semi-annual usage reports for all entities accessing the Contract, as requested. Participating entities shall place their own orders directly with the Contractor and shall fully and independently administer their use of the contract to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract no matter the circumstances.

Please refer to Attachment B, Zone Map, if the offeror wishes to submit separate pricing structure based on approved zones for cooperative institutions. Refer to Attachment B for the approved Zone Map. If no other prices are offered, pricing provided will apply to all zones in the
Commonwealth. If you wish to provide pricing for a zone other than which this solicitation originated, please indicate you are doing so in the response. If you anticipate pricing differentials for different zones, a separate pricing sheet must be submitted for each zone that includes appropriate pricing for that zone.

Use of this contract does not preclude any participating entity from using other contracts or competitive processes as the need may be.

VII. STATEMENT OF NEEDS:

A. Respond to requests from the university to provide a full suite of event management services as needed.

B. Provide all personnel, equipment, uniforms and incidentals necessary to provide event staffing services.

C. Provide two-way radio communications that interface with the university system.

D. All staff members will be employees of the contract holder. All training, transportation and personnel accounting will be provided by the contractor.

If your firm is currently certified, you agree to maintain your certification for the life of the contract. For assistance with SWaM certification, visit the SBSD website at [http://www.sbsd.virginia.gov/](http://www.sbsd.virginia.gov/)

B. General Requirements

1. RFP Response: In order to be considered for selection, Offerors shall submit a complete response to this RFP to include;

   a. **One (1) original and four (4) copies** of the entire proposal, including all attachments. Any proprietary information should be clearly marked in accordance with 2.e. below.

   b. **One (1) electronic copy** in WORD format or searchable PDF (flash drive) of the entire proposal as one document, INCLUDING ALL ATTACHMENTS mailed along with the hard copy above. Any proprietary information should be clearly marked in accordance with 2.e. below.

   c. Should the proposal contain proprietary information, provide one (1) redacted hard copy of the proposal and attachments with proprietary portions removed or blacked out. This copy should be clearly marked “Redacted Copy” on the front cover. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable. Virginia Tech shall not be responsible for the Contractor’s failure to exclude proprietary information from this redacted copy.
Response shall be submitted to:

Virginia Polytechnic Institute and State University (Virginia Tech)
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

Reference the Due Date and Hour, and RFP Number in the lower left hand corner of the return envelope or package.

No other distribution of the proposals shall be made by the Offeror.

2. Proposal Preparation:

a. Proposals shall be signed by an authorized representative of the Offeror. All information requested should be submitted. Failure to submit all information requested may result in Virginia Tech requiring prompt submission of missing information and/or giving a lowered evaluation of the proposal. Proposals which are substantially incomplete or lack key information may be rejected by Virginia Tech at its discretion. Mandatory requirements are those required by law or regulation or are such that they cannot be waived and are not subject to negotiation.

b. Proposals should be prepared simply and economically providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be on completeness and clarity of content.

c. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph number, subletter, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and subletter should be repeated at the top of the next page. The proposal should contain a table of contents which cross references the RFP requirements. Information which the offeror desires to present that does not fall within any of the requirements of the RFP should be inserted at an appropriate place or be attached at the end of the proposal and designated as additional material. Proposals that are not organized in this manner risk elimination from consideration if the evaluators are unable to find where the RFP requirements are specifically addressed.

d. Each copy of the proposal should be bound in a single volume where practical. All documentation submitted with the proposal should be bound in that single volume.

e. Ownership of all data, material and documentation originated and prepared for Virginia Tech pursuant to the RFP shall belong exclusively to Virginia Tech and be subject to public inspection in accordance with the Virginia Freedom of Information Act. Trade secrets or proprietary information submitted by an Offeror shall not be subject to public disclosure under the Virginia Freedom of Information Act. However, to prevent disclosure the Offeror must invoke the protections of Section 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data or other materials is submitted. The written request must specifically identify the data or other materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret material submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that
constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable and may result in rejection of the proposal.

3. Oral Presentation: Offerors who submit a proposal in response to this RFP may be required to give an oral presentation of their proposal to Virginia Tech. This will provide an opportunity for the Offeror to clarify or elaborate on the proposal but will in no way change the original proposal. Virginia Tech will schedule the time and location of these presentations. Oral presentations are an option of Virginia Tech and may not be conducted. Therefore, proposals should be complete.

F. The contractor agrees to be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from the payment of all sums of money by reason of any claim against them arising out of any and all occurrences resulting in bodily or mental injury or property damage that may happen to occur in connection with and during the performance of the contract, including but not limited to claims under the Worker's Compensation Act. The contractor agrees that it will, at all times, after the completion of the work, be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from all liabilities resulting from bodily or mental injury or property damage directly or indirectly arising out of the performance or nonperformance of the contract.

PRICE ESCALATION/DEESCALATION: Price adjustments for changes in the contractor's price of materials, labor and transportation may be permitted. Request for price adjustments for any other reasons will not be granted. No price increases will be authorized for 365 calendar days after the effective date of the contract. Contractor shall give not less than 30 days advance notice prior to the annual renewal of the contract of any desired price increase.

The Contractor shall document the amount and proposed effective date of any general change in the price of materials, labor and transportation. Documentation shall be supplied with the contractor's request for increase which will (1) verify that the requested price increase is general in scope and not applicable just to Virginia Tech, and (2) verify the amount or percentage of increase which is being passed on to the contractor by the contractor's suppliers. Failure by the contractor to supply the aforementioned verification with the request for price increase will result in a delay of the effective date of such increase. The Virginia Tech Procurement Department may verify such change in price independently. The Virginia Tech Procurement Department may make such verification as it deems adequate. However, any increase which the Virginia Tech Procurement Department determines is excessive, regardless of any documentation supplied by the contractor, may be cause for cancellation of the contract by the Virginia Tech Procurement Department. The Virginia Tech Procurement Department will notify the contractor in writing of the effective date of any increase which is approved. However, the contractor shall fill all purchase orders received prior to the effective date of the price adjustments of the old contract prices.

"Across the Board" price decreases are subject to implementation at any time and shall be immediately conveyed to Virginia Tech. The contractor is further advised that price decreases which affect the price of materials, labor, and transportation are required to be passed on to Virginia Tech immediately. Failure to do so will result in action to recoup such amounts.

PROPOSAL/BID ACCEPTANCE PERIOD: Any Proposal/Bid received in response to this solicitation shall be valid for 90 days. At the end of the 90 days the Proposal/Bid may be withdrawn at the written request of the offeror/bidder. If the Proposal/Bid is not withdrawn at that time it remains in effect until an award is made or the solicitation is cancelled.

PROPOSAL/BID PRICES: Proposal/Bid shall be in the form of a firm unit price for each item during the contract period.

RENEWAL OF CONTRACT: This contract may be renewed by Virginia Tech upon written agreement of both parties for two successive two year period(s), under the terms of the current contract, and at a reasonable time (approximately 90 days) prior to the expiration.

HISTORY AND EXPERIENCE

Rhino Sports & Entertainment Services is based in Winston-Salem, North Carolina. At Rhino Sports, we fully intend to share with all our clients the ability to achieve the overwhelmingly positive fan and customer experience that many are accustomed to receiving in Winston-Salem.

We have a belief that an organization’s success lies largely in its ability to recruit quality people who are dedicated to enhancing the brand of the clients we represent and training them to be even better. We’ve built an incredible customer service organization by creating a unique and open book training plan, maintaining strong and clear principles, and fostering a culture of constant self-evaluation.

While Rhino Sports & Entertainment Services is a young company established in 2012, the management and ownership team have over 60 years of combined experience and an extensive knowledge of college athletics. Billy D. Prim has been a successful entrepreneur and entered the sports arena in 2002 as the owner of the local Winston-Salem minor league baseball team. His success in business has allowed Rhino Sports to grow with the necessary resources needed to maintain a high level of excellence for our clients.

Hickman joined the Rhino Sports team in June of 2012, after working in Wake Forest University Athletics for 10 years, concluding as the Assistant Athletic Director for Event Management and Facilities. In 2007, Hickman co-founded CEFMA, Collegiate Event and Facilities Management Association, and formed it under the NACDA umbrella of organizations. He served as a Board Member from 2008-2012 and was elected as an officer in 2011 on track to become President of the organization had he not left working for an NCAA institution.
Wake Forest and the Winston-Salem Dash have been clients from day one. Rhino Sports then added Virginia Tech, Duke, NC A&T, Clemson, Liberty, Baylor and West Virginia to our growing list of clients.

While smaller in size, Rhino Sports has been the complete provider of services at Wake Forest for all events, including football, and basketball since 2012. While BB&T Field is a smaller college athletic facility the level of expectation by the athletic department is extremely high. By supplying every aspect of game day staff we have tested experience in providing services such as golf cart drivers, customer information booths, and coaches’ escorts.

Rhino Sports also provides game day staffing for the minor league Winston-Salem Dash, an affiliate of the Chicago White Sox. BB&T Ballpark is the home for Dash baseball. Providing service for the Dash over the course of their season allows us to continuously improve our customer service training and delivery. Fans and guests attend minor league games for the experience not necessarily the game results. This has allowed us to create a training program and a methodology of operation for our company that results in the highest level of customer service and satisfaction.

Wake Forest and the Winston-Salem Dash accounts created our proof of concept. Rhino Sports has previously completed five full seasons at Virginia Tech. Rhino Sports and I personally remain deeply committed to a successful operation and finding ways to improve every year.

Providing over 600 staff for Clemson in the areas of security, ushers, guest information and ticket scanning, has helped improve our operation for a stadium of over 81,000 fans. While we share the facility with another provider, Rhino Sports has created a partnership with the Athletic Department that puts the needs of the client first. Our open book pricing models allow for better cooperation in providing the best services for each client.

The recent additions of Liberty, Baylor and West Virginia have proven a successful shift in financial models allowing for stronger partnerships. Liberty and Baylor are also two institutions leading the country in security standards, including, but not limited to walk through metal detectors. We have created and implemented training on magnetometers and hand-held wands.

**NOTHING TELLS A STORY BETTER THAN CONSISTENT RESULTS.**
My wife and I were at Baylor this weekend to visit our daughter Julia. We had our 2 year old son Levi that we are in the process of adopting with us. My wife and Julia had arranged the trip as a birthday present for me. I was very excited to experience a game at McLane stadium for the first time. We got to the game and as you can imagine everyone was quickly frazzled trying to keep up with a 2 year old who was into everything. We saw the berm area and figured that would be a great area for him to play while we watched the game, but of course we didn’t have tickets for that area. In stepped Scott who took us to the ticket booth and assisted in getting our tickets converted. We walked into the berm and everyone’s disposition immediately changed. We had a fantastic time! Levi was able to run and play and I watched an incredible game. Scott stopped by later to check on us. Please pass along our thanks for Scott’s display of excellent customer service.

Frank Bonnewitz
Father of Baylor University Student

“I would be remiss if I did not advise the two of you about the wonderful experience my family and I enjoy as we enter the Blue Devil Tower gates. I can name a few but the security personnel that stands out is the smiling face of Ms Bonita Douglas who stands on the “D” in the lobby she is genuinely friendly and personable. As an avid sports fan, Iron Duke member and strong supporter of the University, I felt it important to share.”

Dr. Allen R. Jones, Jr.
Guest visiting Duke University

“I am not writing about employment but wanted to let you know that one of your employees was so helpful at the Baylor-UTSA game. My mom is on a walker and one of your employees came up to us to ask my mom if she wanted to take the elevator (of course we did, but we missed it) - he noticed that we had walked right past the elevator and he wanted to make it easier on my mom so he escorted us to the elevator. He was very helpful and friendly so my mom and I wanted to make sure his supervisors’ were aware of his actions:). It’s not always the norm to find helpful and friendly employees, but he certainly is! We appreciated his concern and help!”

Shelley Copeland Ruiz
Mother of a potential Liberty student

I was visiting Liberty this week with my daughter for CFAW. At convocation I was impressed with the level of security and professionalism. Gives me comfort in knowing my daughter will be well cared for. At the TobyMac concert, we met Latanya Carter. My daughter & I (being from Florida) wanted to go see the snow. She checked to be sure it was ok, made sure we knew we would have to go back through security. She made sure we were safe but also gave us that personal touch and encouraged my daughter! Thank you for doing a great job! What a great experience!

Rhonda Castagne
Rhino Sports Liberty employee who worked at Martinsville Speedway

I wanted to thank you for giving me the opportunity to work for and with Rhino this past weekend as a weekend warrior. When I went to the pre employment introduction to Rhino and to post hire orientation, they told us how Rhino is a family and how we set out at each event to provide an unsurpassed customer experience to everyone all the time. However the few events I did work in Lynchburg I loved the environment and the team/family approach to providing the unsurpassed customer experience. This past weekend really showed what a team and family Rhino is when all the different accounts came together and worked as one family to continue to provide the unsurpassed customer experience to everyone all the time. It was great to have the leadership support. I just wanted to say what a pleasure and fun experience it was to come work with the Rhino family for an entire weekend. I wish I was going back to work for Rhino today instead of sitting at my finance manager desk today. What a great job you have done in putting your company together and building your leadership. I look forward to many more outings with the Rhino Family. Have a great day.
Brian Haack (aka Jeremiah’s Daddy)
Guest visiting the Winston-Salem Dash with his Autistic 9 year old son

“I wanted to write back to let you know what a wonderful, special time my boy and I had last night, which was his first ever ball game. At nine years old, most of his peers have been going to the ballpark for years, but this was something he couldn’t handle up until now.

One of the things kids with Autism struggle with is knowing how to engage socially, and a baseball stadium is a big place with a lot of people and a lot going on. It can be an overwhelming place for kids like him. I won’t lie, I was concerned for him - and he expressed (several times) how nervous he was and begged me to let him stay home because he was afraid to go.

We got off to a bad start because I was so nervous getting him out of the house, that I forgot his noise attenuating headphones. He gets overwhelmed with too many sensory stimuli (especially sounds) but when things aren’t too noisy, he can relax and responds better to instruction. I explained our situation to the customer service staff and they jumped into action. Soon a gentleman delivered some earplugs and headphones to us at our seats (talk about going above and beyond the call of duty!). That man also gave my boy his first baseball. He was very excited about it and couldn’t wait to show his mother when we got home.

That man may think all he did was bring a kid some earplugs, but let me tell you what he really did.

As soon as my son put those earplugs in, I could see him relax. From then on it was a magical evening. As a disability advocate, I saw that a ballpark can be a therapeutic place for kids with Autism. It is culturally rich, crowded and busy place which offers challenges, while also offering a whole litany of predictable traditions that a child with Autism can be taught to understand and participate in. This helps them feel like they belong.

Sometimes the familiarity of your job becomes so routine that its easy to forget that since work is where a person spends the majority of their waking hours, this is where we encounter the greatest number of people. Work, therefore, is where we stand the best chance of making a significant difference in the lives of the people around us...many of whom live daily battles we know nothing of. This is certainly our case. It’s not a battle that I regret-- not one that I would trade for anything in the world, because I adore my boy, but it does influence every part of my life and how I make decisions about everything-- and I do mean everything.

I wish I knew that man’s name...the one who got the earplugs for my son, but he did so much more than “get a kid some earplugs”. Had he not done that, we would have had to leave the ballpark. By taking the time to help us, he opened up a brand new experience for my boy. An experience he wants to have again. Thanks to that simple act of personally attentive kindness, my boy now wants to come to the games all the time. Even now, so long after the game, when he says his prayers at night, he still thanks God for the Winston Salem Dash and for all the fun he had.

In my new job, I get to tell people about boys like my son and help them learn how to welcome them. People often tend to see the obvious social handicap and even when they are kind, they tend to minimize just how much my son is like them (and everyone else). People like my boy don’t just want to just “be present”...they want to “belong”. But, unfortunately, they know that their limitations often mean they can’t “belong” without a little extra love and accommodation. That’s why I’m so grateful to you and the Winston Salem Dash. You took steps which didn’t merely “consent to my son’s presence”. Consent is not the same as “being welcomed”. You took an active role in making sure he could not only come, but that he would enjoy, and I will always be grateful to you for that.”
