Re: Recommendation of Guiding Principles for General Education

Over the past month, a team of twelve faculty representing each academic college have worked to identify guiding principles that will help develop a new model of general education at Radford University. These principles were circulated and input was received from the campus community. The team recommends the following principles:

1. The general education program is student centered. Therefore, the general education program:
   a. is easy to understand, explain, and navigate;  
   b. allows student choice;  
   c. encourages timely graduation;  
   d. accommodates the needs of students (freshman, transfer, non-traditional, first-generation, veterans, international, etc.).

2. The general education program promotes strong foundations for student learning and success on campus and beyond. Therefore, the general education program:
   a. provides opportunities to develop abilities and gain knowledge useful within and across disciplines;  
   b. exposes students to diversity of perspective and depth of knowledge through coursework outside their discipline;  
   c. encourages engagement with and guidance by full-time faculty;  
   d. ensures reliable and valid assessment of learning goals and outcomes.

3. The general education program reflects the identity and responsibilities of Radford University. Therefore, the general education program:
   a. embodies the Academic Values, Vision, Mission, and Core Values of Radford University;  
   b. aligns with regional, state, University, college, and department accreditation requirements;  
   c. invites all Radford University colleges to contribute to General Education;  
   d. adapts to internal and external factors (transfer issues, legislative changes, accreditation-University, department, SACSCOC, and SCHEV, etc.).
