

VCCS Transfer Guide

Academic Year 2020-21

This Transfer Guide is designed to assist students within the Virginia Community College System (VCCS) have a smooth transition to Radford University which includes both the Radford University Main Campus and Radford University Carilion Campus. Upon admission, all transfer students will receive an official course evaluation. Non-VCCS students may use this guide as a general reference, but should rely on the official transfer evaluation for verification of course equivalencies.

Pathways to Transfer

1. Completion of a VCCS Transferable Associate Degree

In accordance with the State Policy on Transfer (1993), students who transfer to Radford University from a Virginia Community College will have satisfied RU's Core Curriculum requirements if any of the following is met:

- the student has by the time of transfer earned an *Associate of Arts*, *Associate of Science*, or *Associate of Arts and Science* degree from a Virginia Community College; or
- the student is able to earn such a degree by successfully completing at a Virginia Community College courses remaining for the applicable associate degree concurrently with the first semester of enrollment at RU; or
- the student will earn an applicable associate degree as a result of credit earned during his or her first semester of enrollment at RU, up to a maximum of 10 hours.

Students who have earned an Associate of General Studies will satisfy RU's Core Curriculum requirements if the institution awarding the degree has been approved by SCHEV as satisfying the State Policy on Transfer. A list of approved institutions is found at the [SCHEV website](#). For those students who earned an Associate of General Studies at an institution not on the list of approved institutions, a course-by-course transfer credit evaluation will be performed.

Students should be aware that many programs have major-specific requirements or prerequisites satisfied through the Core Curriculum. These courses are required as part of the major.

Students completing a VCCS Transferable Associate Degree may be eligible for admission under the VCCS and Radford University Guaranteed Admission Agreement.

2. Articulation Agreements

Radford University has partnered with VCCS and individual community colleges to create articulation agreements. These special agreements define the way courses and degree programs transfer to Radford University and may include admission guarantees.

3. Course by Course Transfer

This guide lists the courses that routinely transfer from VCCS to RU. Students who have not completed a transferable associate degree or are entering under an articulation agreement will receive credit on a course by course basis. Courses not listed in this guide will be evaluated as part of the admissions process.

Choosing a Program of Study

The first step in charting your pathway to success is choosing the university and the program of study that is right for you. Radford University offers a diverse curriculum of more than 140 undergraduate and graduate degree programs in seven colleges: Davis College of Business and Economics, College of Education and Human Development, College of Humanities and Behavioral Sciences, Artis College of Science and Technology, College of Visual and Performing Arts, Waldron College of Health and Human Service, and the College of Graduate Studies and Research. Students who have not yet selected a major are assisted by the Advising Center for Major Exploration.

The second step to success is to obtain a progress sheet to your intended program of study, which outlines RU and RUC core curriculum and major requirements. Progress sheets are available on the Core Curriculum Website and College Advising Centers. Use this Transfer Guide to determine RU course numbers and VCCS course equivalencies.

The third step is to develop a plan of study that includes your coursework at the community college in preparation for transferring to RU. This should be done in consultation with your community college counselor and your RU College Advising Center or your RUC Faculty Advisor and/or Program Director.

Finally, pay attention to deadlines for applying, filing your FAFSA, applying for scholarships... and most importantly, be sure to visit often and see for yourself all that RU and RUC have to offer!

Transfer Guidelines and Policies

Each year Radford University welcomes new transfer students from Virginia Community Colleges. For a full description of admissions criteria, guidelines and academic policies related to transfer students, please refer to the Office of Admissions website, contact them at admissions@radford.edu, or call 540-831-5371. You will also want to refer to the Radford University Undergraduate Catalog.

Transfer students should be aware of the following:

- To receive transfer course credit, a student must achieve a grade of "C" or higher at the community college. A grade of "C-" or lower will not transfer.
- Transfer credits do not affect Radford University grade point averages (GPA).

- No fewer than 30 semester hours must be taken at Radford University to be eligible for graduation.
- Fifty percent (50%) of the semester hours required for a major or minor must be taken at Radford University.
- As a minimum, 120 semester hours are required for graduation.
- To eligible to receive Latin Honors (e.g. cum laude, magna cum laude, summa cum laude) a student must have earned a minimum of 60 semester hours at Radford University. Students whose cumulative GPA is greater than or equal to 3.50, but who do not earn 60 credit hours at RU, will graduate “With Distinction.”

RU Core Curriculum

Radford University is committed to the development of mature, responsible, well-educated citizens. In addition to acquiring a diverse body of knowledge, RU graduates will possess a love of learning and a range of intellectual skills that enable them to meet the challenges and realize the promise of living in a complex, multicultural, and ever-changing world. The purpose of the Core Curriculum is to give students a foundational learning experience where students improve their ability to think, both critically and analytically, and begin to take possession of the learning process. The Core Curriculum consists of 30 to 36 semester hours divided into two key areas: University Core and College Core.

Students completing a VCCS Transferable Associate Degree have satisfied Core Curriculum requirements. It is important to note that many programs have major-specific requirements or prerequisites satisfied through the Core Curriculum. These are listed on the progress sheets under University Core and College Core areas of study (e.g. mathematical sciences) and are still required as part of the major.

Students transferring course-by-course credit should, whenever possible, take courses at the community college that will meet Core Curriculum and major-specific requirements and prerequisites.

University Core – Core Foundations includes 3 credit hours of foundational writing (ENGL 111), 3 credit hours of foundational mathematics (MATH 100, 121, or 125), and two courses of at least 3 credit hours of writing intensive coursework. Students seeking writing intensive transfer determination should contact the department which offers courses in that discipline.

Virginia Community College System & Richard Bland College Transfer Equivalencies

Listed on the following pages are the courses in the Virginia Community College System (pg. 4-14) and Richard Bland College (pg. 14-16) that Radford University will accept for transfer as specific discipline credit. Other courses, not listed in this guide, may transfer to Radford University as elective credit, or may be re-evaluated to be considered for credit.

When two VCCS course indexes are hyphenated, each course is equal to the respective course listed at Radford University. When a “+” is between two VCCS course indexes, both courses must be taken in order to have them equal the course at Radford University. When “or” appears, either VCCS course will equal the course at RU.
