

Annual Summative Teacher Evaluation by School Supervisor: *Summary*

All Virginia (VA) school divisions are required by law to use these eight standards in their annual evaluation of teachers. Since most program completers are employed and evaluated by these standards in VA public schools, it is appropriate for the Education Preparation Program to use this to evidence their effectiveness and impact on P-12 student learning and growth. Data reflects that completers do apply the professional knowledge, skills, and dispositions learned in the program and demonstrate their impact on P-12 schools on student learning and growth. Completers were rated as *approaching effective* or *effective* all seven of the VUPS with a mean score of 2.98 across standards 1 through 8.
