SECTION I: PROGRAM INFORMATION

List of Programs

THIS PAGE INCLUDES:

>> List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Postgraduate level (PG), or both. (§205(a)(C))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Teacher Preparation Program

List of Programs

Note: This section is preloaded with the list of programs reported in the prior year's IPRC.

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.121	Early Childhood Education	PG	
13.1202	Elementary Education	Both	
13.1203	Junior High/Intermediate/Middle School Education and Teaching	UG	
13.1	Special Education	Both	
13.1302	Teacher Education - Art	UG	
13.1322	Teacher Education - Biology	Both	
13.1323	Teacher Education - Chemistry	Both	
13.1337	Teacher Education - Earth Science	Both	
13.1305	Teacher Education - English/Language Arts	Both	
13.1306	Teacher Education - Foreign Language	Both	
13.1311	Teacher Education - Mathematics	Both	
13.1312	Teacher Education - Music	UG	
13.1314	Teacher Education - Physical Education and Coaching	UG	
13.1329	Teacher Education - Physics	Both	
13.1318	Teacher Education - Social Studies	Both	

Total number of teacher preparation programs:

SECTION I: PROGRAM INFORMATION

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- <u>Adjunct faculty supervising clinical experience</u>
- <u>Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience</u>
- Supervised clinical experience

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the undergraduate level?

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5			

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5

4. Please provide any additional information about the information provided above:

Note that some programs, such as Elementary Education, Secondary English, Mathematics, and Science, have higher GPA requirements than the 2.5 minimum, and many programs have course specific GPA requirements for admission into the EPP.

Postgraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the postgraduate level?

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

4. Please provide any additional information about the information provided above:

Some programs have higher GPA requirements than the 2.75 minimum, such as Elementary Education, and many programs have course specific GPA requirements for admission into the EPP.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2023-24. (§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))

Are there programs with student teaching models?

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	260
Number of clock hours required for student teaching	400

Are there programs in which candidates are the teacher of record?

- Yes No

If yes, provide the next two responses. If no, leave them blank.

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	
Years required of teaching as the teacher of record in a classroom	

All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)	17
Optional tool for automatically calculating full-time equivalent faculty in the system	
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	7
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	176
Number of students in supervised clinical experience during this academic year	178

Please provide any additional information about or descriptions of the supervised clinical experiences:

Currently, there is no required minimum number of clock hours of supervised clinical experience required prior to student teaching. However, in order for candidates to be admitted to student teaching they must satisfactorily complete the early field experience and have a positive recommendation from the university supervisor. Because the programs vary, candidates complete a different number of hours of early field experience. For example, candidates in the K-12 specialty program areas complete anywhere from 30 - 50 hours of field experience because it is embedded in their methods course while candidates in the elementary, early primary, middle, secondary, and special education program areas complete anywhere from 280 - 350 hours of early field experience as candidates in these programs take a stand alone field experience course. On average, candidates complete about 216 hours of early field experience. Candidates complete two semesters of early field experience and two semesters of student teaching experience, whereas students in five-year licensure programs (Art, Music, and Physical and Health Education) complete one semester of student teaching, seven weeks at the elementary level and seven weeks at the secondary level. Those programs embed earlier experiences with P-12 students in pre-field coursework. Expectations for clinical experiences are based on the Virginia Department of Education Regulations. Candidates are required to complete a minimum of ten weeks of full--time student teaching, including 150 hours of direct teaching. Our candidates exceed the minimum requirement. On average, they complete a total of 520 hours.

SECTION I: PROGRAM INFORMATION

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year. (§205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Enrolled Student
- Program Completer

Enrollment and Program Completers

2023-24 Total		
Total Number of Individuals Enrolled	121	
Subset of Program Completers	79	

Gender	Total Enrolled	Subset of Program Completers
Male	21	18
Female	100	61
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0
Asian	0	0
Black or African American	8	7
Hispanic/Latino of any race	3	3
Native Hawaiian or Other Pacific Islander	0	0
White	97	61
Two or more races	7	3

No Race/Ethnicity Reported	6	5

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

<u>Academic Major</u>

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<u>https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</u>).

CIP Code	Subject Area	Number Prepared	
13.10	Teacher Education - Special Education	11	
13.1202	Teacher Education - Elementary Education	36

13.1329	Teacher Education - Physics	
13.1331	Teacher Education - Speech	

13.1337	Teacher Education - Earth Science	
13.14	Teacher Education - English as a Second Language	
13.99	Education - Other Specify:	

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

Yes
No

No teachers prepared in academic year 2023-24

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

CIP Code	Academic Major	Number Prepared
13.10	Teacher Education - Special Education	4
13.1202	Teacher Education - Elementary Education	2
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education

Program Assurances

THIS PAGE INCLUDES:

>> Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

- 1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
 - Yes
 - No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

No

Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

• Yes No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. We utilize all professional standards outlined in the Council for Exceptional Children in our coursework, along with the Virginia Standards of Learning. We teach evidence-based practices outlined by the USDOE and VADOE, as well as those outlined in our licensure regulations. In accordance with the expectations of our national accreditor, CAEP, we ensure that candidates complete field experiences in diverse school settings. We have partnerships and advisory boards with LEAs which creates on-going opportunities for the college and the LEAs to stay attuned to one another's needs and provide each other with feedback. Our students are fully immersed at our partnership sites and end their programs with many additional hours above the minimum required for licensure. Teacher candidates take either EDSP 361 or EDSP 404/504, which are introductory special education courses. Our graduate students take EDSP

651. The majority of our students in teacher preparation programs are placed in inclusive settings, so they are experiencing working with students with disabilities, students who are gifted, students who are English language learners and from a wide array of economic background in these general education classrooms. Teacher candidates also complete an online module that helps them identify students with dyslexia. Graduate students enrolled in initial licensure programs take multicultural education, EDUC 670, which is a required core course and addresses limited English proficiency students. Undergraduate students in our initial licensure programs take EDUC 370, which is an undergraduate level multicultural education course. Foundations courses required of all students address issues of multicultural education, socio-economic status, and rural, urban and suburban contexts. We continue to practice curricular mapping with our professional standards across programs to look for gaps, repetition, and areas in need of revision or improvement.

SECTION II: ANNUAL GOALS Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

Report Progress on Last Year's Goal (2023-24)

1. Did your program prepare teachers in mathematics in 2023-24?

If no, leave remaining questions for 2023-24 blank (or clear responses already entered).

- Yes No
- 2. Describe your goal.

Retain all of the secondary and middle education mathematics candidates in the program.

3. Did your program meet the goal?

- Yes No
- 4. Description of strategies used to achieve goal, if applicable:

N/A

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lesson Learned to Help Meet Future Goals: We need to collaborate with our K-12 partners and allow highly competent candidates to complete their student teaching placement while being employed by the school divisions.

- >> Report Progress on Last Year's Goal (2023-24)
- >> Review Current Year's Goal (2024-25)
- >> Set Next Year's Goal (2025-26)

6. Provide any additional comments, exceptions and explanations below:

The biggest challenge we have with retaining our secondary candidates, especially at the graduate level, is the ability for them to be provisionally hired. We continually lose candidates to school division partners who hire them before they complete the program.

Review Current Year's Goal (2024-25)

7. Is your program preparing teachers in mathematics in 2024-25? If no, leave the next question blank.

8. Describe your goal.

Continue to support and retain all of the secondary and middle education mathematics candidates in the program.

Set Next Year's Goal (2025-26)

9. Will your program prepare teachers in mathematics in 2025-26? If no, leave the next question blank.

10. Describe your goal.

Retain all of the secondary and middle education mathematics candidates in the program.

SECTION II: ANNUAL GOALS Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

Report Progress on Last Year's Goal (2023-24)

1. Did your program prepare teachers in science in 2023-24?

If no, leave remaining questions for 2023-24 blank (or clear responses already entered).

Yes No

2. Describe your goal.

Continue to collaborate with biology, chemistry, geology, and physics departments to recruit more undergraduate students into the Secondary Science Education program.

3. Did your program meet the goal?

4. Description of strategies used to achieve goal, if applicable:

N/A

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

1. Identify faculty liaisons in the departments of biology, chemistry, physics, and geology to support recruitment efforts 2. Attend club meetings and visit major classes to recruit potential science educators

- >> Report Progress on Last Year's Goal (2023-24)
- >> Review Current Year's Goal (2024-25)
- >> Set Next Year's Goal (2025-26)

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2024-25)

7. Is your program preparing teachers in science in 2024-25? If no, leave the next question blank.

8. Describe your goal.

Collaborate with biology, chemistry, geology, and physics departments to recruit more undergraduate students into the Secondary Science Education program.

Set Next Year's Goal (2025-26)

9. Will your program prepare teachers in science in 2025-26? If no, leave the next question blank.

```
10. Describe your goal.
```

Increase the total number of middle and secondary science program completers by 5.

SECTION II: ANNUAL GOALS Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

Report Progress on Last Year's Goal (2023-24)

1. Did your program prepare teachers in special education in 2023-24?

If no, leave remaining questions for 2023-24 blank (or clear responses already entered).

- Yes No
- 2. Describe your goal.

Increase the number of program completers in special education by five students.

3. Did your program meet the goal?

- Yes No
- •
- 4. Description of strategies used to achieve goal, if applicable:

N/A

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

1. Continue to collaborate with university admissions team to recruit students into the deaf and hard of hearing; early childhood special education; and special education: general curriculum programs. 2. Market inclusive educator preparation program in which candidates earn concurrent teaching endorsements in elementary and special education: general curriculum - elementary.

- >> Report Progress on Last Year's Goal (2023-24)
- >> Review Current Year's Goal (2024-25)
- >> Set Next Year's Goal (2025-26)

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2024-25)

7. Is your program preparing teachers in special education in 2024-25? If no, leave the next question blank.

8. Describe your goal.

Continue to increase the number of program completers in Special Education by growing the number of students completing the add-on endorsement in Special Education: General Curriculum.

Set Next Year's Goal (2025-26)

9. Will your program prepare teachers in special education in 2025-26? If no, leave the next question blank.

10. Describe your goal.

Increase the number of program completers in Special Education by growing the number of students completing the add-on endorsement in Special Education: General Curriculum.

SECTION II: ANNUAL GOALS

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

Report Progress on Last Year's Goal (2023-24)

1. Did your program prepare teachers in instruction of limited English proficient students in 2023-24?

If no, leave remaining questions for 2023-24 blank (or clear responses already entered).

- Yes No
- 2. Describe your goal.

3. Did your program meet the goal?

- Yes No
- 4. Description of strategies used to achieve goal, if applicable:
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2023-24)
- >> Review Current Year's Goal (2024-25)
- >> Set Next Year's Goal (2025-26)

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2024-25)

7. Is your program preparing teachers in instruction of limited English proficient students in 2024-25? If no, leave the next question blank.

8. Describe your goal.

Set Next Year's Goal (2025-26)

9. Will your program prepare teachers in instruction of limited English proficient students in 2025-26? If no, leave the next question blank.

10. Describe your goal.

SECTION III: PROGRAM PASS RATES

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ($\S205(a)(1)(B)$)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Pass rate
- <u>Scaled score</u>

THIS PAGE INCLUDES:

>> <u>Summary Pass Rates</u>

SECTION IV: LOW-PERFORMING

Low-Performing

THIS PAGE INCLUDES:				
>>	Low-Performing			

Provide the following information about the approval or accreditation of your teacher preparation program. (§205(a)(1)(D), §205(a)(1)(E))

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

No

If yes, please specify the organization(s) that approved or accredited your program:

J	State
J	CAEP
	AAQEP
	Other specify:
-	The EPP has full CAEP accreditation through spring 2026.

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Yes
No

SECTION V: USE OF TECHNOLOGY

Use of Technology

THIS PAGE INCLUDES:	
>> Use of Technology	

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes No
- b. use technology effectively to collect data to improve teaching and learning
 - Yes No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes No
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The general approach to ensuring teacher education students can successfully integrate technology within their practice includes the facilitation of strategies for using technology to improve instruction, community-building, management of teaching resources, and professional development. An important aspect of using technology to improve instruction includes learning how to use technology to collect and analyze student achievement data in an effort to identify areas of need for subsequent instructional events (formative evaluation techniques). For example, the Impact on Student Learning assignment requires teacher candidates to utilize technology tools to collect and display P-12 student performance data on summative assessments. Teacher candidates are expected to integrate technology as well as incorporate UDL principles into instruction. Candidates are provided feedback related to these skills from the university supervisors. This feedback is documented on the Lesson Plan rubric and the Observation checklist. General education candidates take technology courses at the undergraduate and graduate levels. Special Education students take a co-listed undergraduate/graduate course on assistive technology. General education students with a special education concentration also take the assistive technology courses are informed by global technological trends and the latest research on how people learn best with the help of technology, yet they remain grounded in practical classroom applications. The special education technology courses emphasize adaptive and assistive technologies and the role they can play within individual education plans. In addition, the importance of Universal Design for Learning (UDL) principles and how these are applied within web-supported instructional experiences are addressed. UDL principles are reviewed in the courses, and students get practice evaluating instructional support websites based on these principles. Students in the graduate technology courses develop online portfolios presenti

include a number of artifacts aligned with the Use of Technology outcomes.

SECTION VI: TEACHER TRAINING

Teacher Training

THIS PAGE INCLUDES:

>> <u>Teacher Training</u>

Provide the following information about your teacher preparation program. (§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
- a. Teach students with disabilities effectively

The Special Education program area provides service courses for general education students in middle, K-12 specialty areas, and secondary education. These courses provide content on special education services, roles and responsibilities of general educators related to students with exceptional learning needs, and methods of accommodating and instructing diverse learners. Elementary Education candidates are prepared to be inclusive educators. Therefore, they complete coursework in specially designed instruction and intervention in addition to their content area coursework. Elementary and Special Education candidates are co-placed in inclusive elementary classroom settings for their field experience and student teaching placements. They are co-supervised by faculty members in the Elementary and Special Education program areas. At the end of the program, elementary candidates are eligible to receive a concurrent special education: general curriculum, elementary add-on endorsement.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities* Education Act.

All of the required introductory special education courses for general education teachers address special education law and regulations that pertain to individualized education programs, plans and teams. Special Education faculty are currently exploring other opportunities for incorporating training into the general education teacher preparation programs and work alongside their general education colleagues to plan and assess teacher candidates' knowledge in these areas.

c. Effectively teach students who are limited English proficient.

Teacher candidates learn about the needs of limited English proficient students in the Foundations of Education course and the Multicultural Education courses. In addition, the literacy education courses also address the literacy needs of limited English proficient students.

2. Does your program prepare special education teachers?

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

In addition to introductory classes that address special education law and regulation related to IEPs, all special education students take special education coursework that focuses on collaboration, evaluation, and evidence based practices at both the undergraduate and graduate levels. In addition to special education methods courses, these students also take content courses alongside general education students in social studies, science, mathematics and reading, thus ensuring coursework that addresses the needs of all learners. Teacher candidates participate in multiple field experiences where they gain practical experience teaching students with a range of abilities and needs. They also have the opportunity to implement evidence based practices under the guidance of a faculty supervisor.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act.*

All students in special education teacher preparation programs experience active participation on IEP meetings during their field experience placements. For example, Special Education teacher candidates attend three special education related meetings (i.e., eligibility, IEP, RTI) per placement. Upon completion of the program, these candidates would have participated in twelve such meetings. In addition, we have two courses where students are required to develop IEP components based upon student data. For example, students implement transition assessments with secondary learners and develop IEP goals for transition services.

c. Effectively teach students who are limited English proficient.

Teacher candidates learn about the needs of limited English proficient students in the Foundations of Education course. In addition, the literacy education courses also address the literacy needs of limited English proficient students. The diagnostic assessment course addresses characteristics and needs of students with language based disabilities versus limited English proficiency.

Contextual Information

On this page, review the contextual information about your program, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Radford University's Educator Preparation Programs are approved by the Virginia Department of Education and in spring 2020, earned full accreditation by the Council for the Accreditation of Educator Preparation (CAEP). The university offers 23 endorsement programs: 19 initial licensure programs at the graduate and undergraduate level and four graduate-level advanced programs. The initial licensure programs at the undergraduate level include the following: art, *biology, *chemistry, *deaf and hard of hearing, *early childhood special education, *early/primary education, *elementary, *foreign language (Spanish), middle, music (instrumental), music (vocal), health and physical education, *earth science, *English, *mathematics, *physics,*social studies, and *special education: general education. (Note: The asterisk (*) denotes programs that are also offered at the graduate level.) There is one initial licensure program offered at the graduate level: special education: adapted curriculum. Through a consortium of IHEs, we offered initial licensure in visual impairment. Advanced programs are offered at the graduate level and include the following: Educational Leadership, Literacy Education (reading specialist), School Counseling, and School Psychology.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.
