TH STUDENT ENGAGEMENT FORUM

RADFORD UNIVERSITY
Undergraduate Research and Scholarship

Student Engagement Forum Coordinators in OURS

Joe Wirgau, Director

Maggie Pate, Associate Director

Amanda Melvin, Administrative Assistant

Madison Ferst, Graduate Assistant

Brooklynn Ham, Graduate Assistant

Sierra Felty, Executive Student Assistant

Maia Grove, Executive Student Assistant

Skylar Roberson, Executive Student Assistant

The following individuals are acknowledged for their contributions:

Bud Bennett, Archives Supervisor

Robin Dowdy, Director, Creative Services

Jeff Greenough, University Photographer

Connie Leathers, Support Specialist & Trainer, IT

Jonathan Mayer, Assistant Manager, Printing Services

Lydia McCallister, Operations Manager, Archives

Jeanne Mekolichick, Associate Provost, Academic Programs

Foster Sheppard, Graphic Design Manager, University Relations

Josh Wimmer, Graphic Production Tech, Printing Services

The following individuals are acknowledged for Organizing Previous Student Engagement Forums:

Rick Slavings 1992-2002

Orion Rogers 2003

Joe King 2004-2013

Niels Christensen 2011-2013

The artwork for this program is a collaborative effort between Foster Sheppard, Madison Ferst, and the library archivists. It is inspired by the 1992 Radford University Beehive yearbook cover. For the timeless popularity and relevance, Polaroids were chosen to highlight the development and progress of Radford University in research across the past 30 years.

30th Radford University Student Engagement Forum

Schedule at a Glance

Please note that this event is occurring virtually through a combination of D2L and Zoom. All of the live Zoom links are included below for your ease of navigation and listed with the session titles throughout the program. Anyone with a Radford email can add themselves to "RU Student Engagement Forum" D2L page by self-enrolling by following the instructions [linked here](#).

Monday, April 12th: All Zoom Passwords: SEF2021

Environmental Sociology Research Session 1	11:00-11:50am	pp 5
Zoom: https://radford.zoom.us/j/99887924433		
Commodities, Value and History	11:00-11:50am	pp 5

Asynchronous: Accessible on D2L

Art History Showcase	pp 33
Biology Virtual Session	pp 34
Graduate Criminal Justice Showcase 2	pp 34-35
Interdisciplinary Asynchronous Presentations	pp 35-36
Production Technology Showcase	pp 36
Undergraduate Criminal Justice Showcase	pp 37-38

Welcome and Retrospective

30 years of the Radford Student Engagement Forum (SEF). Thirty years! They say the only constant is change, and although this event has changed names multiple times and grown from a mere 30 student presenters to nearly 400 this year (despite a pandemic), it has been a constant that Radford University has been committed to engaging our students in projects that challenge them to grow and find answers to questions that matter in our modern society. The “Annual Undergraduate Forum” (cover art for the 3rd program pictured, right) started with big objectives. Every year our students and faculty continually meet the eight original goals that range from the first, “encouraging awareness and recognizing exemplary student accomplishments” to the last, “showcasing and celebrating what is best in undergraduate education at Radford University.” Building off of this proud tradition, and in support of the founding goals for the now Student Engagement Forum, I am excited to include the first annual OURS CARES Awards Showcasing the Best in Undergraduate Research during the traditional Thursday evening conclusion to the forum—as many call it. Maybe we shouldn’t have changed the name so many times. But the name changes are a great segue into the history of the forum and how those changes are representative of changes across campus. The SEF would not exist without passionate professors like Moira Baker who found a way to mentor students and find funding to present at the first ever National Conference at Undergraduate Research in Ashville, NC in 1987. Enthusiasm for bringing these experiences to more students was championed by Warren Self and brought into existence by Rick Slavings in 1991. I consider myself indebted to their vision for our university. In the early years the title changed to the Undergraduate Graduate Forum to include all of our students and a growing graduate degree portfolio and then to Undergraduate/Graduate Student Engagement Forum in support of our QEP. In this same time period, the Honors Academy became the sponsor under the guidance of Orion

Rogers and then for many years grew under the vision of Joe King. I have had the privilege of managing the Student Engagement Forum, since taking over from Niels Christensen in 2004. Niels was extremely gracious in offering advice, examples, and answering my questions in those early years. OURS has tried to bring new ideas every year to the SEF and this year we added the Lighting Research Competition and live virtual presentations. We continually push researchers across campus to think of the audience member and how we can best deliver information in a meaningful way. I like to think I’ve come a long way since my first research poster in 1999 (pictured left, for your amusement at the insistence of our GA Madison Ferst).

Etched in stone on the front of the Bonnie is the phrase *Investing In Lifetimes*. Throughout the last three decades, the Student Engagement Forum has been an investment in our students. This investment is well captured in quotes from longtime participants such as Melinda Wagner: “The Student Engagement Forum acts as a springboard to professional pursuits” and Susan Kwilecki “The Student Engagement Forum pushed already excellent students to higher standards.” My hope is that each of you capture that spirit from interacting with the myriad of students presenting this week. Thirty years! As I look to the future, this past year of mastering—well ok, becoming accustomed to—zoom, wearing masks, and knowing precisely how far apart six feet is has made it clear I have no idea what is in store for the SEF, Radford University, or each of you. However, in seeing Radford University faculty and student teams find solutions to challenges, such as a way to adapt and carryout every funded SURF proposal where the majority of planned summer research projects across the nation were canceled, I know that the future is bright for the highlander family. I cannot wait to see what the 40th and 50th renditions bring!

-With Highlander Pride, Joe Wirgau, Director of OURS

Environmental Sociology Research Session 1

Monday, April 12th, 11:00 - 11:50 am

I was initially wary that a non-traditional research project would not be taken seriously by most. However, the OURS team absolutely proved me wrong, and it is because of their belief in my work that I have the opportunity to study things I otherwise couldn't at Radford and share my work with the world.

OURS CARES Awards

Thursday, April 15th, 6:00 – 6:30 pm
Zoom: 99672287552 Password: SEF2021

We welcome everyone to the inaugural OURS CARES (Office of Undergraduate Research & Scholarship Creative Arts and Research Excellence: Scholar) Awards: Showcasing the Best in Undergraduate Research! This virtual event will recognize students and faculty who have had significant achievements in undergraduate research throughout the past year.

OURS CARES Awards Schedule

Opening Remarks: by Joe Wirgau, Director of OURS

Summer Undergraduate Research Fellowship Program: Join us announcing and congratulating this year's recipients of the prestigious multidisciplinary student written grants at Radford University.

Lightning Research Competition: Join us in recognizing the winners of the fastest three minutes in research and a repeat performance of the winning entry.

Outstanding Undergraduate Research Mentor Award: Join us in the announcement of the two inaugural award recipients, each of whom have demonstrated their commitment to Student Development, Creating Opportunities, Dissemination, Equity and Inclusion, and Career Development.

Highlander Research Rookies: The Highlander Research Rookies Program was created to encourage and promote opportunities for research-based engagement and learning. Join us in sharing in their reflections on their growth, and accomplishments from this past year.

Excellence in Mentored Research & Creative Inquiry: Join us in celebrating the Faculty-student teams that reached the highest levels of dissemination in the 2020 AY. Keynote address by Maci Keaton, Allied Health Science, Class of 2021.

Accelerated Research Opportunities- Living Learning Community: Join us in reflections of these awesome freshmen who found a way even during a global pandemic to create new knowledge.

Research Scholar Transcript Designation: All of the recipients being celebrated have created new human understanding of the world, across a rich and diverse set of research areas. They have also spent at least two semesters persevering to find answers to “wicked” problems and sharing their findings with the larger community.
