

SECOND ANNUAL

# Winter

Creative Activities  
AND Research Days

NOVEMBER 10-13

**RADFORD** UNIVERSITY

Undergraduate Research and Scholarship

**Welcome:** It is my pleasure to welcome you to the 2<sup>nd</sup> Winter Creative Arts & Research Days at Radford University and for the first time in a virtual environment. Even though it seems like everything is different in 2020, what has not changed is the fact that hundreds of Radford University students have been working closely with faculty mentors to create new knowledge. I could not be prouder of our students and faculty. I hope you enjoy hearing about their accomplishments. The projects are on asynchronous display all week through Portfolium and D2L, you can also interact with presenters live through the Zoom links on the next page. This week is a continual demonstration of what it means to be a Highlander as these students and faculty mentors have been **responsive** to community and national needs, by being **resilient** in the face of a pandemic, and ultimately created **real** knowledge that positively impacts society.

-**With Highlander Pride**, Dr. Joe Wirgau, Director of the Office of Undergraduate Research & Scholarship

### College of Visual and Performance Art Presents From The Department of Theatre and Cinema

**Almost, Maine** by John Cariani and Directed by Robyn Berg

Pridemore Playhouse: Nov. 11, 12, 13 and 14 at 7:30 p.m.  
and Nov. 15 at 2:00 p.m. [Ticket Information](#)

The fictional town of Almost, Maine comes to life on a clear, cold night through a series of vignettes inspired by the universal emotion of love. The residents fall in and out (and even up and down!) of love in hilarious, touching and slightly surreal ways. Normally very grounded, these characters are temporarily excited and experience magical moments that seem to coincide with the northern lights that fill the sky above them. Join us as we explore this simple town as it deals with the complicated issue of love.
